The following are mailed under direction of the Superintendent of Documents, Government Printing Office, Washington, D.C., 20402, to whom all subscriptions should be made payable and all communications addressed:

THE OFFICIAL GAZETTE (PATENTS SECTION), issued weekly, subscription $300.00 per annum for first-class mailing, also available as fourth-class mail at $200.00; foreign first-class mailing rates will be furnished upon request; single copies each, $4.00 domestic, $5.00 foreign.

THE OFFICIAL GAZETTE (TRADEMARK SECTION), issued weekly, subscription $88.40 per annum, foreign mailing $22.10 additional; single copies $1.70 each.

CIRCULARS OF GENERAL INFORMATION concerning PATENTS, price 75 cents each.

CIRCULARS OF GENERAL INFORMATION concerning TRADEMARKS, price 95 cents each.

PRINTED COPIES OF PATENTS are furnished by the Patent and Trademark Office at 50 cents each; PLANT PATENTS in color, $1.00 each; copies of TRADEMARKS AND DESIGN PATENTS at 20 cents each. Address orders to the Commissioner of Patents and Trademarks, Washington, D.C., 20231.

Printing authorized by Section 11(a)3 of Title 35, U.S. Code P.T.O.

TITLE 37—PATENTS, TRADEMARKS, AND COPYRIGHTS

Chapter I—Patent and Trademark Office, Department of Commerce

PART 1—RULES OF PRACTICE IN PATENT CASES

Rule Promulgation Relating to Implementation of the Patent Cooperation Treaty

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final Rule.

SUMMARY: This notice adopts rule changes which permit the filing of United States national patent applications in the format required by the Patent Cooperation Treaty which entered into force on January 24, 1978. Some of these rule changes are necessary in order that international applications arriving for national examination in the United States Patent and Trademark Office as a Designated Office are formally acceptable. The changes also permit applicants for United States patents to file their United States national applications in the same format as that required by the Patent Cooperation Treaty, which is also the format required by the European Patent Convention. Other changes are made in the rules which relate to the filing of international and national applications.

DATES: Effective date, June 1, 1978. The amended rules apply to national and international applications filed on and after the effective date. It should be noted that international applications may be filed on and after June 1, 1978.

FOR FURTHER INFORMATION CONTACT: Mr. Louis O. Maassel by telephone at (703) 557-3070, or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: This notice promulgates a number of previously proposed rule changes relating to the filing of international applications under the Patent Cooperation Treaty and the filing of United States national applications which have the same format as international applications. Notice was given on January 12, 1977 in the Federal Register (42 FR 2632-2644) and on February 8, 1977 in the Official Gazette (955 O.G. 350-363) of a proposal to amend Title 37 of the Code of Federal Regulations upon the entry into force of the Patent Cooperation Treaty and Public Law 94-131 (94th Congress; 89 Stat. 685). Interested persons were invited to comment on the proposal on or before May 26, 1977, on which date a public hearing was held. The time for submitting written comments was extended until August 31, 1977 by a notice published on June 23, 1977 in the Federal Register (42 FR 31812) and on July 12, 1977 in the Official Gazette (960 O.G. 8). Twenty-four comments relevant to the proposed rule changes were received. The comments relating to the rules established in this notice are discussed in the commentary of the rules. A transcript of all comments presented by two persons at the oral hearing, and the written statements received are available for public inspection in Room 11E10 of Crystal Plaza Building 3, 2021 Jefferson Davis Highway, Arlington, Virginia. Some of the rules of the above-mentioned proposals, namely, sections 1.75, 1.81 and 1.83, have already been promulgated by the rule change which appeared in the Federal Register of January 31, 1978 at 43 FR 4014-4015 and on February 21, 1978 in the Official Gazette at 967 O.G. 12. This promulgation permits the filing of United States national applications in the same format as international applications and also makes a number of other changes in the rules.

Comments on Adopted Rules

No comments were received relating to sections 1.1, 1.4, 1.5, 1.8, 1.9, and 1.12. These sections are promulgated as proposed.

Section 1.14 received three comments. One letter suggested adding another paragraph (e) to mention that defense agencies are given access to applications relating to national security. Another letter indicated no objection to such an addition but did not consider it necessary. The first mentioned comment was not adopted since the proposed paragraph (e) would be restating a provision appearing in section 5.1(b). The third letter questioned whether the Patent and Trademark Office would supply a copy of the international application "pamphlet" after it was published. In response to this comment it should be noted that the Office will supply copies of the "pamphlet" at the regular price of 30 per page but that it will not give access to or supply copies of any pending national or international application without the written authorization of the applicant, assignee or attorney or agent of record. Paragraph (c) has been revised to refer to the Department of Energy which now has the pertinent responsibilities under the Atomic Energy Act.

Section 1.21 received one comment indicating that it was not clear whether the fee was required for both the international-type search and search report or only for the search report. The rule has been amended in order to clarify that the fee is required for the report only.

Sections 1.23 and 1.25 received no comments and are adopted as proposed.

Section 1.26 has been revised from the proposal by providing for only three choices as to refund rather than five. This change was made to simplify the determination of the amount of the refund, if any. In addition, the rounding of refunds was changed from the next higher multiple of $10 to the next higher multiple of $5 for greater preciseness.

Section 1.52 received one comment which proposed changing the wording of 1.52(c) to permit applicant's representative, as well as the applicant himself, to initial changes to application papers made before filing. Since no change in section 1.52(c) had been proposed, the suggested change is not required by the Patent Cooperation Treaty, the proposal is not being adopted in this promulgation.

Two comments were received noting that the proposed wording in section 1.55 did not distinguish between the prior art effective dates of international applications filed in the United States and those filed outside the United States. The proposed wording is correct since it corresponds with the language of 35 U.S.C. 102(e) as amended by Public Law 94-131.

Section 1.57 received two comments to the effect that applicants of international applications were given greater rights than national applicants since the proposed rule states that it is not required that the applicant of an international application have the oath or declaration attached to the specification at the time of signing. In response, it is acknowledged that the practice set forth in proposed section 1.57 is somewhat different for the two filing routes; however, the proposed wording follows the concepts set forth in 35 U.S.C. 371(c) as added by Public Law 94-131. Accordingly, no change is considered to be necessary or desirable.

One comment was received relating to section 1.58. The comment indicated the rule should relate only to complex chemical and mathematical formulas and tables. This comment has been adopted by revising section 1.58(c) to add the word "complex" before "formulas."

Section 1.61 received two comments from one person. The first comment relating to a question of where an international application would be examined for issuance, is not understood since international applications are not issued. However, since the comment did raise the matter of examination, a phrase has been added to indicate clearly that the requirements of section 1.61 must be followed if an examination for a U.S. patent is desired in an international application. The second comment indicated that there was no antecedent basis for the "mailing date of the declaration to the applicant." The declaration is clearly mentioned at the beginning of paragraph 1.61(b). The meaning of the mailing date of such a document to the applicant appears to be sufficently clear. No change is considered to be necessary in response to the second comment. In addition, numbers have been added to each of the listed items to improve readability.

Section 1.70 received two comments. Both related to providing uniformity between sections 1.65 and 1.70. It should be noted that section 1.65 was amended shortly after the time the proposal was published. Proposed section 1.70 has accordingly been amended to include the newly added wording of section 1.65. The wording of proposed section 1.70 has also been amended to provide for both genders.

Section 1.72 received no comments and is adopted as proposed.

One comment was submitted concerning section 1.77 which suggested that the rule specify that an attorney's docket number and the name of the inventor may be placed on the initial page of an application. Such a procedure is currently permitted, although not specifically mentioned in the rules. Since such data is not considered to be one of the application elements, the amendment of section 1.77 is not considered to be necessary. The rule is adopted as proposed.

No comments were received concerning section 1.78. This rule is adopted as proposed.

Section 1.84 relating to standards for drawings received four comments. One suggestion, not adopted, was that drawings on 8½ by 11 inch paper be permitted. Although this size is close to DIN size A4, the additional processing and printing problems which would result from three different paper sizes appear to be greater than the resulting benefits at this time. Some experience with the two sizes proposed is felt to be desirable before any additional alternatives are permitted. One comment proposed that this rule be adopted as early as possible. Since drawings under existing rules can also be prepared in a way which will later permit easy compliance with PCT requirements, it was considered unnecessary to adopt this suggestion. Two comments were received concerning the interpretation of paragraph (i). Although the wording of this paragraph is in substance the wording of PCT Rule 11.13(i), second sentence, it appears that some clarification is necessary. Therefore proposed paragraph (i) has been amended to clarify the intended requirements. The reference to blue ink in subparagraph (c) has been deleted since it has been deleted from the Treaty regulations.

Section 1.104 received one comment, which also related to section 1.21, to the effect that the proposed wording was not clear. The proposed section has been slightly revised and a note added for purpose of clarity. The preparation of a formal international-type search report is not required by the U.S. Patent and Trademark Office in order for the international-type search to serve as the basis for a search fee refund in a later international application.

Section 1.141 was commented upon by seven persons. The comments of several persons indicated that it appeared that paragraph 1.141(e) was unnecessary. This view is accepted; accordingly, paragraph 1.141(e) has been deleted from the promulgation. Another comment indicated that no need was seen to limit the wording of subparagraph (c) to only a few categories of claims. The treaty requires that the arrangements of claims described in (c), (i) and (ii) be considered as one invention, subject to the conditions stated in PCT Rule 13.2. It should be noted that proposed subparagraphs (c), (i) and (ii) are substantially a copy of PCT Rule 13.2. However, in view of this and other comments and for clarity, sections 1.141 and 1.146 and 1.481 and 1.482 have been substantially rewritten, amplified, and reorganized to clarify the meaning of certain terms, namely, "specially adapted" and "specifically designed", to conform more closely to current Office practice as set forth in MPEP sections 806.05(e)–(g). Both proposed rules 1.141 and 1.146 have been modified to clarify that the rules make little change in current restriction practice. The differences between the PCT unity of invention requirement and current restriction practice are minimal. The rewriting and reorganization of proposed sections 1.141 and 1.146 substantially states the current rule language except that the five species limitation is removed. Other comments indicated additional clarification of the other paragraphs would also be helpful. Such amendments have been made as mentioned.

Four comments were submitted relating to section 1.146. One comment received indicated that no reason was found in the PCT as to why an election of species is required regardless of whether or not there is an allowable generic claim. Although there is no reason in the PCT for such a requirement, the rule was amended to reflect current Office practice which in MPEP section 808.01(a) allows the examiner to require an election of species prior to the search. The second comment indicated a preference to maintain current restriction practice in all national applications which were not filed under the PCT route. This comment has been satisfied by the rewriting of the rules mentioned above. The third and fourth comments indicated that no need was seen to seek a requirement for restriction in all cases. These comments are similarly satisfied by the rewriting of the rules.

No comments were received concerning sections 1.318 and 1.331. These rules have been adopted as proposed.

Section 1.401 received no comments; however, "or" has been changed to—and—in subparagraph (a).

Section 1.412 was commented on by two persons. One comment suggested that a subparagraph (5) be added to refer to the licensing requirements of Part 5. This proposal has been adopted. The other comment considered the addition unnecessary.

Section 1.413 received no comments. However, the wording has been revised to provide for the United States Patent and Trademark Office to act as an International Searching Authority for other Receiving Offices subject to the approval of an agreement as such by the Commissioner. The name of the International Searching Authority has also been changed to follow the Administrative Instructions.

One comment was received relative to section 1.414 questioning the use of the word "will" in subparagraph (a). After review, no problem is seen with the proposed wording; therefore, no change is considered to be necessary.

Section 1.415 received no comments and is adopted as proposed.

Section 1.421 received comments from two persons. One comment is related to the requirement that the inventor must file the international application if patent protection is desired in the United States as a Designated State. This provision is set forth in 35 U.S.C. 373 and cannot be changed by modification of the rules. However, the rules, as proposed, have been amended and subparagraph (d) added to permit the attorney or agent to sign on behalf of the inventor. The other comment relates to the requirement that only nationals and residents of the United States can file in the United States Receiving Office. The requirement appears in 35 U.S.C. 361(a). As to the situation involving an invention made in this country by an inventor who is neither a resident nor national, such an inventor may file a regular U.S. national application or may obtain a license under 35 U.S.C. 184 to file in the foreign Receiving Office for the country of which the inventor is a resident or national.

No comments were received concerning sections 1.422, 1.423, 1.424 and 1.425. Except for the addition of one reference to the feminine gender, these rules are adopted as proposed.

Sections 1.431 and 1.432 were both the subject of a question as to whether the withdrawal of the international application would result in withdrawal of the national application. The withdrawal of the international application would result in the withdrawal of the designation of all States. If the United States was designated in an international application which was withdrawn before the requirements of 35 U.S.C. 371 were fulfilled, no processing of that withdrawn application would occur except as provided under PCT Article 25. These sections are adopted as proposed.

Section 1.433 received two comments, both related to the fact that the broad reference to PCT Rule 11 did not clearly indicate what size papers were required. This matter has been clarified in the promulgated rule to indicate that DIN A4 size sheets are required.

One comment was received concerning section 1.434 which correctly noted that the second arrow used to indicate additions in the proposal, should have been at the end of the paragraph.

No comments were received concerning sections 1.435, 1.437 and 1.438. These sections are adopted as proposed.

Section 1.436 has been amended to specifically include the requirement of PCT Rule 6.1(a), that the number of claims shall be reasonable.

Two comments were received relating to section 1.445 which indicated that the proposed fee amounts were too high. After review, it is felt that the fee amounts are set as required to cover 100% of the costs involved.

No comments were received concerning section 1.446; however, the number of refund choices has been reduced from 5 to 3 to simplify the determination choices.

No comments were received concerning section 1.451. Subparagraph (c) was amended to clarify the intent of the rule.

Section 1.455 received one comment which indicated that the expression "common representative" was not understood. This comment has been answered by adding a citation to PCT Rule 4.8, which explains the expression.

Section 1.461 received comments from four persons which proposed that a new subparagraph (c) be added which warns that a foreign filing license may be required to transmit a

copy of the international application outside the United States. This suggestion has been adopted.

One comment relative to section 1.465 noted that the notation "PCT" was inadvertently omitted before a rule citation. This, along with a rule citation, have been corrected in the promulgation.

Section 1.468 received two comments, both related to problems raised by subparagraph (b). Upon reconsideration it appears that the broad language of subparagraph (a) and the reference to PCT Rule 82 is sufficient; accordingly, proposed subparagraph (b) has been deleted.

Section 1.471 received one comment which related to amendments at the national stage. Since this rule relates only to international stage amendments, the rule is promulgated as proposed.

No comments were received relating to section 1.475; accordingly, the rule is promulgated as proposed.

Section 1.481 received one general comment which related to national practice rather than the international practice covered by this rule. However, changes were made in the proposed rules 1.481 and 1.482 to clarify them and make them more understandable. For one, it now makes clear that PCT Rule 13 is consistent with much of current practice under sections 1.141 and 1.146 with several exceptions specifically set out in section 1.481. The protest provisions have also been moved from section 1.481 to section 1.482 since the handling of protests is somewhat different subject matter than the other contents of section 1.481. In addition, subsection (c) of proposed section 1.482 was moved to section 1.481 where the subject matter is more pertinent. The other subsections of proposed subsection 1.482 were eliminated as unnecessary since they are part of existing practice and do not require inclusion in the rules specifically. The reference in section 1.481 to PCT Rule 13 in effect, includes these deleted subsections by reference.

A number of references to sections of the Administrative Instructions have been changed to reflect changes in the numbering of sections in the current version of the Administrative Instructions.

PART 3

Sections 3.56 and 3.57 received two comments. One comment essentially involved deleting the basic requirements of section 1.70. This proposal has not been adopted since it also affects section 1.65 and must be given careful study and an opportunity for comment allowed before any such change may be made. The other proposal indicated that the "duty of disclosure" provisions were not in these forms. The forms have been revised to include this duty.

PART 5

Section 5.1 received comments from two persons. Subparagraph (a) has been substantially rewritten to provide for filing of international applications in the United States Receiving Office without a license for foreign filing but for limiting the transmittal of the international application to a foreign national or international agency. Subparagraph (b) has been revised to refer to the Department of Energy.

Section 5.3 received comments from two persons which related to subparagraph (d). This subparagraph has been rewritten in view of the comments received.

Section 5.11 received comments from ten persons who all suggested that the rule be rewritten to permit the initial filing of an international application in the United States Receiving Office without a license. The rule has been rewritten in this manner.

Section 5.13 is amended due to a submitted proposal although the rule was not included in the proposed rule change notice. The changes made in section 5.13 follow the concepts suggested by numerous comments to section 5.11. Therefore, it is felt that the change can be made even though such a change was not proposed.

Section 5.14 received one comment as to possible processing problems but no suggestion was made; accordingly, the section is adopted as proposed.

Section 5.15 has been revised as suggested by two persons to refer to transmittal of the international application rather than filing thereof.

No comments were received relative to Section 5.17; this rule is adopted as proposed.

In a number of instances, references to the masculine gender have been deleted.

The Patent and Trademark Office has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement Under Executive Orders 11821 and 11949 and OMB Circular A-107.

The following table of contents indicates the contents of the promulgated subparts and the location of added sections and section headings.

PART I—RULES OF PRACTICE IN PATENT CASES

SUBPART A—GENERAL PROVISIONS

(§§ 1.1–1.26)

General Information and Correspondence

* * *

§ 1.9 Definitions.

* * * * *

SUBPART B—NATIONAL PROCESSING PROVISIONS

(§§ 1.31–1.352)

* * * * *

The Application

* * *

§ 1.61 Filing of applications in the United States of America as a Designated Office.

Oath or Declaration

* * *

§ 1.70 Content of oath or declaration relating to content of and amendments to an application under 35 U.S.C. 371(c)(4).

* * * * *

Allowance and Issue of Patent

* * *

§ 1.318 *Notification of national publication of a patent based on an international application*

* * * * *

SUBPART C—INTERNATIONAL PROCESSING PROVISIONS

(§§ 1.401–1.482)

General Information

§ 1.401 Definitions of terms under the Patent Cooperation Treaty.
§ 1.412 The United States Receiving Office.
§ 1.413 The United States International Searching Authority.
§ 1.414 The United States Designated Office.
§ 1.415 The International Bureau.

Who May File an International Application

§ 1.421 Applicant for international application.
§ 1.422 When the inventor is dead.
§ 1.423 When the inventor is insane or legally incapacitated.
§ 1.424 Joint inventors.
§ 1.425 Filing by other than inventor.

The International Application

§ 1.431 International application requirements.
§ 1.432 Designation of States and payment of designation fees.
§ 1.433 Physical requirements of international application.
§ 1.434 The Request.
§ 1.435 The description.
§ 1.436 The claims.
§ 1.437 The drawings.
§ 1.438 The abstract.

Fees

§ 1.445 International application filing and processing fees.
§ 1.446 Refund of international application filing and processing fees.

Priority

§ 1.451 The priority claim and priority document in an international application.

Representation

§ 1.455 Representation in international applications.

Transmittal of Record Copy

§ 1.461 Procedures for transmittal of record copy to the International Bureau.

Timing

§ 1.465 Timing of application processing based on the priority date.

§ 1.468 Delays in meeting time limits.

Amendments

§ 1.471 Corrections and amendments during international processing.

§ 1.475 Changes in person, name, or address of applicants and inventors.

Unity of Invention

§ 1.481 Determination of unity of invention before the International Searching Authority.

§ 1.482 Protest to lack of unity of invention.

PART 3—FORMS FOR PATENT CASES

* * *

§ 3.56 Oath to be filed with United States Designated Office under 35 U.S.C. 371(c)(4).

§ 3.57 Declaration to be filed with United States Designated Office under 35 U.S.C. 371(c)(4).

Accordingly, 37 CFR parts 1, 3 and 5 are amended as follows:

1. By revising § 1.1 to read as follows:

§ 1.1 *All communications to be addressed to Commissioner of Patents and Trademarks.*

All letters and other communications intended for the Patent and Trademark Office must be addressed to "Commissioner of Patents and Trademarks," Washington, D.C. 20231. When appropriate, a letter should also be marked for the attention of a particular officer or individual. Letters and other communications relating to international applications during the international stage and prior to the assignment of a national serial number should be additionally marked "Box PCT."

NOTE: §§ 1.1 to 1.26 are applicable to trademark cases as well as to national and international patent cases except for provisions specifically directed to patent cases. See § 1.9 for definitions of "national application" and "international application."

2. By revising paragraph (a) of § 1.4 to read as follows:

§ 1.4 *Nature of correspondence.*

(a) Correspondence with the Patent and Trademark Office comprises (1) correspondence relating to services and facilities of the Office, such as general inquiries, requests for publications supplied by the Office, orders for printed copies of patents or trademark registrations, orders for copies of records, transmission of assignments for recording, and the like, and (2) correspondence in and relating to a particular application or other proceeding in the Office. See particularly the rules relating to the filing, processing, or other proceedings of national applications in Subpart B, §§ 1.31 to 1.352; of international applications in Subpart C, §§ 1.401 to 1.482; and of Trademark applications §§ 2.11 to 2.189.

* * * * *

3. By revising paragraph (a) of § 1.5 to read as follows:

§ 1.5 *Indentification of application, patent or registration.*

(a) When a letter concerns an application for patent, it should state the name of the applicant, the title of the invention, the serial number or international application number of the application, the date of filing the same, and, if known, the group art unit and name of the examiner to which it has been assigned (see § 1.55).

* * * * *

4. By revising paragraph (a)(1) and adding paragraph (xi) of § 1.8 to read as follows:

§ 1.8 *Certificate of mailing.*

(a) Except in the cases enumerated below, papers and fees required to be filed in the Patent and Trademark Office within a set period of time will be considered as being timely filed if (1) they are addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, and deposited with the United States Postal Service with sufficient postage as first class mail prior to expiration of the set period, and (2) they are accompanied by a certificate stating the date of deposit (see forms, §§ 3.55 and 4.23). The person signing the certificate should have reasonable basis to expect that the correspondence would be mailed on or before the date indicated. The actual date of receipt of the paper or fee will be used for all other purposes. This procedure does not apply to the following:

(1) The filing of national applications for patent;

* * * * *

(xi) The filing of international applications for patent and papers relating thereto.

* * * * *

5. A new section 1.9 is added to read as follows:

§ 1.9 *Definitions.*

(a) A national application as used in this Chapter means a United States national application for patent which was either filed in the Office under 35 U.S.C. 111 or which resulted from an international application after compliance with 35 U.S.C. 371.

(b) An international application as used in this Chapter means an international application for patent filed under the Patent Cooperation Treaty prior to entering national processing at the Designated Office stage.

6. By revising § 1.12 to read as follows:

§ 1.12 *Assignment records open to public inspection.*

The assignment records, relating to original or reissue patents, including digests and indexes, are open to public inspection and copies of any instrument recorded may be obtained upon payment of the fee therefor. Assignment records, digests and indexes, relating to any pending or abandoned application are not available to the public. Copies of any such assignment records and information with respect thereto shall be obtainable only upon written authority of the applicant or his assignee or attorney or agent or upon a showing that the person seeking such information is a bona fide prospective or actual purchaser, mortgagee or licensee of such application, unless it shall be necessary to the proper conduct of business before the Office or as provided by these rules. An order for a copy of an assignment should give the identification of the record. If identified only by the name of the patentee and number of the patent, or in the case of a trademark registration by the name of the registrant and number of the registration, or by name of the applicant and serial number or international application number of the application, an extra charge will be made for the time consumed in making a search for such assignment.

7. By revising paragraphs (a) and (c) of § 1.14 to read as follows:

§ 1.14 *Patent applications preserved in secrecy.*

(a) Except as provided in § 1.11(b) pending patent applications are preserved in secrecy. No information will be given by the Office respecting the filing by any particular person of an application for a patent, the pendency of any particular case before it, or the subject matter of any particular application, nor will access be given to or copies furnished of any pending application or papers relating thereto, without written authority in that particular application from the applicant or his assignee or attorney or agent of record, unless the application has been identified by serial number in a published patent document or the United States of America has been indicated as a Designated State in a published international application, in which case status information such as whether it is pending, abandoned or patented may be supplied, or unless it shall be necessary to the proper conduct of business before the Office or as provided by this part. Where

an application has been patented, the patent number and issue date may also be supplied.

* * * * *

(c) Applications for patents which disclose, or which appear to disclose, or which purport to disclose, inventions or discoveries relating to atomic energy are reported to the Department of Energy, which Department will be given access to such applications, but such reporting does not constitute a determination that the subject matter of each application so reported is in fact useful or an invention or discovery or that such application in fact discloses subject matter in categories specified by sections 151(c) and 151(d) of the Atomic Energy Act of 1954, 68 Stat. 919; 42 U.S.C. 2181 (c) and (d).

* * * * *

8. By adding a new paragraph (w) to § 1.21 to read as follows:

§ 1.21 *Patent and miscellaneous fees and charges.*

* * * * *

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application.... $25.00

NOTE: The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application. For fees relating to processing of international applications, see § 1.445.

9. By revising § 1.23 to read as follows:

§ 1.23 *Method of payment.*

All payments of money required for Patent and Trademark Office fees, including fees for the processing of international applications (§ 1.445), should be made in United States specie, Treasury notes, national bank notes, post office money orders, or by certified check. If sent in any other form, the Office may delay or cancel the credit until collection is made. Money orders and checks must be made payable to the Commissioner of Patents and Trademarks. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of the fee required. Money sent by mail to the Patent and Trademark Office will be at the risk of the sender; letters containing money should be registered.

10. By revising paragraph (b) of § 1.25 to read as follows:

§ 1.25 *Deposit accounts.*

* * * * *

(b) Filing, issue, appeal, international-type search report, international application processing, and petition fees may be charged against these accounts.

11. By revising § 1.26 to read as follows:

§ 1.26 *Refunds.*

Money paid by actual mistake or in excess, such as a payment not required by law, will be refunded, but a mere change of purpose after the payment of money, as when a party desires to withdraw his application or to withdraw an appeal, will not entitle a party to demand such a return. Refund of a portion of any international search fee paid to the Patent and Trademark Office may be made where the prior art search made during the subsequent examination of a national application is wholly or partly based on the earlier international search made in the international application for which the search fee was paid. The amount of the refund will be as determined by the examiner according to the value of the prior international search made by the Patent and Trademark Office as an International Searching Authority, as 90%, 45% or 0% of the international search fee. If the amount of the refund is not a multiple of $5, it will be rounded to the next higher multiple of $5. (Note § 1.446 for refund of the search fee in an international application.) Amounts of ten cents or less will not be returned unless specifically demanded, within a reasonable time, nor will the payer be notified of such amount; amounts over ten cents but less than one dollar may be returned in postage stamps, and other amounts by check.

12. By revising paragraphs (a) and (b) of § 1.52 to read as follows:

§ 1.52 *Language, paper, writing, margins.*

(a) The application, any amendments or corrections thereto, and the oath or declaration must be in the English language except as provided for in § 1.69, or be accompanied by a verified translation of the application and a translation of any corrections or amendments into the English language. All papers which are to become a part of the permanent records of the Patent and Trademark Office must be legibly written, typed, or printed in permanent ink or its equivalent in quality. All of the application papers must be presented in a form having sufficient clarity and contrast between the paper and the writing, typing, or printing thereon to permit the direct production of readily legible copies in any number by use of photographic, electrostatic, photooffset, and microfilming processes. If the papers are not of the required quality, substitute typewritten or printed papers of suitable quality may be required.

(b) The application papers (specification, including claims, abstract, oath or declaration, and papers as provided for in §§ 1.42, 1.43, 1.47, etc.) and also papers subsequently filed, must be plainly written on but one side of the paper. The size of all sheets of paper should be 8 to 8½ by 10½ to 13 inches (20.3 to 21.6 cm. by 26.6 to 33.0 cm.). A margin of at least approximately one inch (2.5 cm.) must be reserved on the left-hand side of each page. The top of each page of the application, including claims must have a margin of at least approximately ¾ inch (2 cm.). The lines of text must not be crowded too closely together; type-written lines should be 1½ or double spaced. The pages of the application, including claims and abstract, should be numbered consecutively, starting with 1, the numbers being centrally located above or preferably, below, the text.

* * * * *

13. By adding paragraph (d) to § 1.55 to read as follows:

§ 1.55 *Serial number and filing date of application.*

* * * * *

(d) The filing date of an international application designating the United States of America shall be treated as the filing date in the United States of America under PCT Article 11(3), except as provided in 35 U.S.C. 102(e).

14. By revising § 1.57 to read as follows:

§ 1.57 *Signature.*

(a) The application must be signed by the applicant in person. The signature to the oath or declaration under § 1.65 will be accepted as the signature to the application provided the oath or declaration under § 1.65 is attached to and refers to the specification and claims to which it applies. Otherwise the signature must appear at the end of the specification after the claims.

(b) The signature to the oath or declaration under § 1.70 will be accepted as the signature to the application provided the oath or declaration under § 1.70 specifically refers to the specification and claims to which it applies.

(c) Full names must be given, including at least one given name without abbreviation together with any other given name or initial.

15. By revising § 1.58 to read as follows:

§ 1.58 *Chemical and mathematical formulas and tables.*

(a) The specification, including the claims, may contain chemical and mathematical formulas, but shall not contain drawings or flow diagrams. The description portion of the specification may contain tables; claims may contain tables either if necessary to conform to 35 U.S.C. 112 or if otherwise found to be desirable.

(b) All tables and chemical and mathematical formulas in the specification, including claims, and amendments thereto, must be on paper which is flexible, strong, white, smooth, nonshiny and durable in order to permit use as camera copy when printing any patent which may issue. A good grade of bond paper is acceptable; watermarks should not be prominent. India ink or its equivalent, or solid black typewriter, should be used to secure perfectly black solid lines.

(c) To facilitate camera copying when printing, the width of formulas and tables as presented should be limited

normally to 5 inches (12.7 cm.) so that it may appear as a single column in the printed patent. If it is not possible to limit the width of a formula or table to 5 inches (12.7 cm.), it is permissible to present the formula or table with a maximum width of 10¾ inches (23.3 cm.) and to place it sideways on the sheet. Type-written characters used in such formulas and tables must be from a block (nonscript) type font or lettering style having capital letters which are at least 0.08 inch (2.1 mm.) high (e.g., elite type). Hand lettering must be neat, clean, and have a minimum character height of 0.08 inch (2.1 mm.). A space at least ¼ inch (6.4 mm.) high should be provided between complex formulas and tables and the text. Tables should have the lines and columns of data closely spaced to conserve space, consistent with high degree of legibility.

16. By adding a new § 1.61 to read as follows:

§ 1.61 *Filing of applications in the United States of America as a Designated Office.*

(a) To maintain the benefit of the international filing date and obtain an examination as to the patentability of the invention in the United States, the applicant shall furnish to the United States Patent and Trademark Office not later than the expiration of 20 months from the priority date: (1) a copy of the international application with any amendments, unless it has been previously furnished by the International Bureau or unless it was originally filed in the United States Patent and Trademark Office; (2) a verified translation of the international application and a translation of any amendments into the English language, if originally filed elsewhere in another language; (3) the national fee (see § 1.445(a)(4)); and (4) an oath or declaration of the inventor (see § 1.70).

(b) Where an International Searching Authority has made a declaration that no international search report will be established because the international application relates to subject matter which it is not required to search, or because the application fails to comply with the prescribed requirements to such an extent that a meaningful search could not be carried out, the time for performing the acts referred to in paragraph (a) of this section is two months from the mailing date of the declaration to the applicant.

17. By adding a new § 1.70 to read as follows:

§ 1.70 *Content of oath or declaration relating to content of and amendments to an application under 35 U.S.C. 371 (c)(4).*

(a)(1) When an applicant of an international application, if the inventor, desires to enter the national stage under 35 U.S.C. 371, he or she must specifically identify the international application and any amendments thereto and state that he or she has reviewed the referred to application and any amendments, and that he or she verily believes himself or herself to be the original and first inventor or discoverer of the process, machine, manufacture, composition of matter, or improvement thereof, for which he or she solicits a patent; that he or she does not know and does not believe that the same was ever known or used in the United States of America before his or her invention or discovery thereof, and shall state of what country he or she is a citizen and where he or she resides and whether he or she is a sole or joint inventor of the invention claimed in his or her international application as filed or as amended. In every application the applicant must distinctly state that to the best of his or her knowledge and belief the invention has not been in public use or on sale in the United States of America more than one year prior to his or her international application, or patented or described in any printed publication in any country before his or her invention or more than one year prior to his or her international application, or patented or made the subject of an inventor's certificate in any foreign country prior to the date of his or her international application on an application filed by himself or herself or his or her legal representatives or assigns more than twelve months prior to his or her international application. He or she must acknowledge a duty to disclose information he or she is aware of which is material to the examination of the application. He or she shall state whether or not any application for patent or inventor's certificate on the same invention has been filed in any foreign country, either by himself or herself, or by his or her legal representatives or assigns. If any such application has been filed, the applicant shall name the country in which the earliest such application was filed, and shall give the day, month, and year of its filing; he or she shall also identify by country and by day, month, and year of filing, every such foreign application filed more than twelve months before the filing of the international application.

(2) This statement (i) must be subscribed to by the applicant, and (ii) must either (a) be sworn to (or affirmed) as provided in § 1.66, or (b) include the personal declaration of the applicant as prescribed in § 1.68.

(b) If the international application was made as provided in §§ 1.422, 1.423 or 1.425, the applicant shall state his or her relationship to the inventor and, upon information and belief, the facts which the inventor is required by this section to state.

18. By revising paragraph (b) of § 1.72 to read as follows:

§ 1.72 *Title and abstract.*

* * * * *

(b) A brief abstract of the technical disclosure in the specification must be set forth on a separate sheet, preferably following the claims under the heading "Abstract of the Disclosure." The purpose of the abstract is to enable the Patent and Trademark Office and the public generally to determine quickly from a cursory inspection the nature and gist of the technical disclosure. The abstract shall not be used for interpreting the scope of the claims.

19. By revising the text and heading of § 1.77 to read as follows:

§ 1.77 *Arrangement of application elements.*

The elements of the application should appear in the following order:

(a) Title of the invention; or an introductory portion stating the name, citizenship, and residence of the applicant, and the title of the invention may be used.
(b) (Reserved).
(c) Cross-references to related applications, if any.
(d) Brief summary of the invention.
(e) Brief description of the several views of the drawing, if there are drawings.
(f) Detailed description.
(g) Claim or claims.
(h) Signature. (See § 1.57).
(i) Abstract of the disclosure.
(j) Drawings.

20. By revising paragraph (a) of § 1.78 to read as follows:

§ 1.78 *Cross-references to other applications.*

When an applicant files an application claiming an invention disclosed in a prior filed copending national application or international application designating the United States of America of the same applicant, the second application must contain or be amended to contain in the first sentence of the specification following the title a reference to such prior application, identifying it by serial number and filing date or international application number and international filing date and indicating the relationship of the applications, if the benefit of the filing date of such prior application is to be claimed. Cross-references to other related applications may be made when appropriate. (See § 1.14(b)).

21. By revising paragraphs (a), (b), (c), (d), (e), (f), (i), (j) and (l) of § 1.84 to read as follows:

§ 1.84 *Standards for drawings.*

(a) *Paper and ink.* Drawings must be made upon paper which is flexible, strong, white, smooth, non-shiny and durable. Two-ply or three-ply bristol board is preferred. The surface of the paper should be calendered and of a quality which will permit erasure and correction with India ink. India ink, or its equivalent in quality, is preferred for pen drawings to secure perfectly black solid lines. The use of white pigment to cover lines is not normally acceptable.

(b) *Size of sheet and margins.* The size of the sheets on which drawings are made may either be exactly 8½ by 14 inches (21.6 by 35.6 cm.) or exactly 21.0 by 29.7 cm. (DIN size A4). All drawing sheets in a particular application must be the same size. One of the shorter sides of the sheet is regarded as its top.

(1) On 8½ by 14 inch drawing sheets, the drawing must include a top margin of 2 inches (5.1 cm.) and bottom and side margins of ¼ inch (6.4 mm.) from the edges, thereby leaving a "sight" precisely 8 by 11¾ inches (20.3 by 29.8 cm.). Margin border lines are not permitted. All work must be included within the "sight". The sheets may be provided with two ¼ inch (6.4 mm.) diameter holes having their centerlines spaced 11/16 inch (17.5 mm.) below the top edge and 2¾ inches (7.0 cm.) apart, said holes being equally spaced from the respective side edges.

(2) On 21.0 by 29.7 cm. drawing sheets, the drawing must include a top margin of at least 2.5 cm., a left side margin of 2.5 cm., a right side margin of 1.5 cm., and a bottom margin of 1.0 cm. Margin border lines are not permitted. All work must be contained within a sight size not to exceed 17 by 26.2 cm.

(c) *Character of lines.* All drawings must be made with drafting instruments or by a process which will give them satisfactory reproduction characteristics. Every line and letter must be durable, black, sufficiently dense and dark, uniformly thick and well defined; the weight of all lines and letters must be heavy enough to permit adequate reproduction. This direction applies to all lines however fine, to shading, and to lines representing cut surfaces in sectional views. All lines must be clean, sharp, and solid. Fine or crowded lines should be avoided. Solid black should not be used for sectional or surface shading. Freehand work should be avoided wherever it is possible to do so.

(d) *Hatching and shading.* (1) Hatching should be made by oblique parallel lines spaced sufficiently apart to enable the lines to be distinguished without difficulty. (2) Heavy lines on the shade side of objects should preferably be used except where they tend to thicken the work and obscure reference characters. The light should come from the upper left-hand corner at an angle of 45°. Surface delineations should preferably be shown by proper shading, which should be open.

(e) *Scale.* The scale to which a drawing is made ought to be large enough to show the mechanism without crowding when the drawing is reduced in size to two-thirds in reproduction, and views of portions of the mechanism on a larger scale should be used when necessary to show details clearly; two or more sheets should be used if one does not give sufficient room to accomplish this end, but the number of sheets should not be more than is necessary.

(f) *Reference characters.* The different views should be consecutively numbered figures. Reference numerals (and letters, but numerals are preferred) must be plain, legible and carefully formed, and not be encircled. They should, if possible, measure at least one-eighth of an inch (3.2 mm.) in height so that they may bear reduction to one twenty-fourth of an inch (1.1 mm.); and they may be slightly larger when there is sufficient room. They should not be so placed in the close and complex parts of the drawing as to interfere with a thorough comprehension of the same, and therefore should rarely cross or mingle with the lines. When necessarily grouped around a certain part, they should be placed at a little distance, at the closest point where there is available space, and connected by lines with the parts to which they refer. They should not be placed upon hatched or shaded surfaces but when necessary, a blank space may be left in the hatching or shading where the character occurs so that it shall appear perfectly distinct and separate from the work. The same part of an invention appearing in more than one view of the drawing must always be designated by the same character, and the same character must never be used to designate different parts. Reference signs not mentioned in the description shall not appear in the drawing, and vice versa.

* * * * *

(i) *Views.* The drawing must contain as many figures as may be necessary to show the invention; the figures should be consecutively numbered if possible in the order in which they appear. The figures may be plan, elevation, section, or perspective views, and detail views of portions of elements, on a larger scale if necessary, may also be used. Exploded views, with the separated parts of the same figure embraced by a bracket, to show the relationship or order of assembly of various parts are permissible. When necessary, a view of a large machine or device in its entirety may be broken and extended over several sheets if there is no loss in facility of understanding the view. Where figures on two or more sheets form in effect a single complete figure, the figures on the several sheets should be so arranged that the complete figure can be understood by laying the drawing sheets adjacent to one another. The arrangement should be such that no part of any of the figures appearing on the various sheets are concealed and that the complete figure can be understood even though spaces will occur in the complete figure because of the margins on the drawing sheets. The plane upon which a sectional view is taken should be indicated on the general view by a broken line, the ends of which should be designated by numerals corresponding to the figure number of the sectional view and have arrows applied to indicate the direction in which the view is taken. A moved position may be shown by a broken line superimposed upon a suitable figure if this can be done without crowding, otherwise a separate figure must be used for this purpose. Modified forms of construction can only be shown in separate figures. Views should not be connected by projection lines nor should center lines be used.

(j) *Arrangement of views.* All views on the same sheet should stand in the same direction and, if possible, stand so that they can be read with the sheet held in an upright position. If views longer than the width of the sheet are necessary for the clearest illustration of the invention, the sheet may be turned on its side so that the top of the sheet with the appropriate top margin is on the right-hand side. One figure must not be placed upon another or within the outline of another.

* * * * *

(l) *Extraneous matter.* Identifying indicia (such as the attorney's docket number, inventor's name, number of sheets, etc.) not to exceed 2¾ inches (7.0 cm.) in width may be placed in a centered location between the side edges within three-fourths inch (19.1 mm.) of the top edge. Authorized security markings may be placed on the drawings provided they are outside the illustrations and are removed when the material is declassified. Other extraneous matter will not be permitted upon the face of a drawing.

* * * * *

22. By adding new paragraphs (c) and (d) to § 1.104 to read as follows:

§ 1.104 *Nature of examination; examiner's action.*

* * * * *

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See § 1.21(w) for amount of fee for preparation of international-type search report.

NOTE: The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

23. By revising § 1.141 to read as follows:

§ 1.141 *Different inventions in one application.*

(a) Two or more independent and distinct inventions, that is, inventions which do not form a single general inventive concept, may not be claimed in one application, except that more than one species of an invention, not to exceed a reasonable number, may be specifically claimed in different claims in one application, provided the application also includes an allowable claim generic to all the claimed species and all the claims to species in excess of one are written in dependent form (§ 1.75) or otherwise include all the limitations of the generic claim.

(b) A group of claims of different categories in an application so linked as to form a single inventive concept are considered to be one invention. In particular any of the following groupings of claims of different categories may be included in the same application:

(1) In addition to a claim for a given product, (*a*) a claim for one process specially adapted for the manufacture of the said product, as where the process of making as claimed cannot be used to make other and materially different products; (*b*) a claim for one use of the said product, as where said use as claimed cannot be

practiced with another materially different product; or (c) both (a) and (b);

(ii) in addition to a claim for a given process, a claim for one apparatus or means specifically designed for carrying out of the said process, that is, it cannot be used to practice another materially different process.

(c) If the situation of subparagraph (i) of paragraph (b) of this section exists where claims to all three categories, product, process and use, are included, and the product claims are not allowable, the use and process claims are not so linked as to form a single general inventive concept. Where the process and use claims are not so joined by an allowable linking product claim, the applicant will be required to elect either the use or the process for prosecution with the product claim.

24. By revising § 1.146 to read as follows:

§ 1.146 *Election of species.*

In the first action on an application containing a generic claim and claims restricted separately to each of more than one species embraced thereby, the examiner may require the applicant in his response to that action to elect that species of his or her invention to which his or her claims shall be restricted if no generic claim is held allowable. However, if such application contains claims directed to more than a reasonable number of species, the examiner may require restriction of the claims to not more than a reasonable number of species before taking further action in the case.

25. By adding a new § 1.318 to read as follows:

§ 1.318 *Notification of national publication of a patent based on an international application.*

The Office will notify the International Bureau when a patent is issued on an application filed under 35 U.S.C. 371, and there has been no previous international publication.

26. By revising paragraphs (a) and (c) of § 1.331 to read as follows:

§ 1.331 *Recording of assignments.*

(a) Assignments, including grants and conveyances, of patents, national applications, or international applications which designate the United States of America, will be recorded in the Patent and Trademark Office under 35 U.S.C. 261. Other instruments affecting title to a patent, a national application, or an international application which designates the United States of America, and licenses, even though the recording thereof may not serve as constructive notice under 35 U.S.C. 261, will be recorded as provided in this section or at the discretion of the Commissioner.

* * * * *

(c) An instrument relating to a patent should identify the patent by number and date (the name of the inventor and title of the invention as stated in the patent should also be given); an instrument relating to a national application, or an international application which designates the United States of America should identify the application by serial number or international application number and date of filing (the name of the inventor and title of the invention as stated in the application should also be given), but if an assignment is executed concurrently with or subsequent to the execution of the application but before the application is filed or before its serial number or international application number and filing date are ascertained, it should adequately identify the application, as by its date of execution and name of the inventor and title of the invention; so that there can be no mistake as to the patent or application intended.

Subpart C

27. By adding a new § 1.401 to read as follows:

§ 1.401 *Definitions of terms under the Patent Cooperation Treaty.*

(a) The abbreviation "PCT" and the term "Treaty" mean the Patent Cooperation Treaty.

(b) "International Bureau" means the World Intellectual Property Organization located in Geneva, Switzerland.

(c) "Administrative Instructions" means that body of instructions for operating under the Patent Cooperation Treaty referred to in PCT Rule 89.

(d) "Request", when capitalized, means that element of the international application described in PCT Rules 3 and 4.

(e) "International application", as used in this Subchapter is defined in § 1.9(b).

(f) "Priority date" for the purposes of computing time limits under the Patent Cooperation Treaty is defined in PCT Art. 2 (xi). Note also § 1.465.

(g) Other terms and expressions in this Subpart C not defined in this section are to be taken in the sense indicated in PCT Art. 2 and 35 U.S.C. 351.

28. By adding a new § 1.412 to read as follows:

§ 1.412 *The United States Receiving Office.*

(a) The United States Patent and Trademark Office is a Receiving Office only for applicants who are residents or nationals of the United States of America.

(b) The Patent and Trademark Office, when acting as a Receiving Office, will be identified by the full title "United States Receiving Office" or by the abbreviation "RO/US."

(c) The major functions of the Receiving Office include:

(1) According of international filing dates to international applications meeting the requirements of PCT Art. 11(1), and PCT Rule 20;

(2) Assuring that international applications meet the standards for format and content of PCT Art. 14(1), PCT Rules 9, 26, 29.1, 37, 38, 91, and portions of PCT Rules 3 through 11:

(3) Collecting and, when required, transmitting fees due for processing international applications (PCT Rules 14, 15, 16);

(4) Transmitting the record and search copies to the International Bureau and International Searching Authority, respectively (PCT Rules 22 and 23); and

(5) Determining compliance with applicable requirements of Part 5 of this chapter.

29. By adding a new § 1.413 to read as follows:

§ 1.413 *The United States International Searching Authority.*

(a) Pursuant to appointment by the Assembly, the United States Patent and Trademark Office will act as an International Searching Authority for international applications filed in the United States Receiving Office and in other Receiving Offices as may be agreed upon by the Commissioner, in accordance with agreement between the Patent and Trademark Office and the International Bureau (PCT Art. 16(3)(b)).

(b) The Patent and Trademark Office, when acting as an International Searching Authority, will be identified by the full title "United States International Searching Authority" or by the abbreviation "ISA/US."

(c) The major functions of the International Searching Authority include:

(1) Approving or establishing the title and abstract;

(2) Considering the matter of unity of invention;

(3) Conducting international and international-type searches and preparing international and international-type search reports (PCT Art. 15, 17 and 18, and PCT Rules 25, 33 to 45 and 47); and

(4) Transmitting the international search report to the applicant and the International Bureau.

30. By adding a new § 1.414 to read as follows:

§ 1.414 *The United States Designated Office.*

(a) The United States Patent and Trademark Office will act as a Designated Office for international applications in which the United States of America has been designated as a State in which patent protection is desired.

(b) The Patent and Trademark Office, when acting as a Designated Office during international processing will be identified by the full title "United States Designated Office" or by abbreviation "DO/US."

(c) The major functions of the United States Designated Office in respect to international applications in which the United States of America has been designated, include:

(1) Receiving various notifications throughout the international stage;

(2) Accepting for regular national patentability examination international applications which satisfy the requirements of 35 U.S.C. 371; and

(3) Conducting reviews under PCT Article 25 for those international applications declared withdrawn.

31. By adding a new § 1.415 to read as follows:

§ 1.415 *The International Bureau.*

(a) The International Bureau is the World Intellectual Property Organization located at Geneva, Switzerland. It is the international intergovernmental organization which acts as the coordinating body under the Treaty and the Regulations (PCT Art. 2 (xix) and 35 U.S.C. 351(h)).

(b) The major functions of the International Bureau include:

(1) Publishing of international applications and the International Gazette;

(2) Transmitting copies of international applications to Designated Offices;

(3) Storing and maintaining record copies; and

(4) Transmitting information to authorities pertinent to the processing of specific international applications.

32. By adding a new § 1.421 to read as follows:

§ 1.421 *Applicant for international application.*

(a) Only residents or nationals of the United States of America may file international applications in the United States Receiving Office.

(b) Although the United States Receiving Office will accept international applications filed by any resident or national of the United States of America for international processing, an international application designating the United States of America will be accepted by the Patent and Trademark Office for the national stage only if filed by the inventor or as provided in §§ 1.422, 1.423 or 1.425.

(c) International applications which do not designate the United States of America may be filed by the assignee or owner.

(d) The attorney or agent of the applicant may sign the international application Request and file the international application for the applicant if the international application when filed is accompanied by a separate power of attorney to that attorney or agent from the applicant. The separate power of attorney from the applicant may be submitted after filing if sufficient cause is shown for not submitting it at the time of filing. Note that paragraph (b) of this section requires that the applicant be the inventor if the United States of America is designated.

(e) Any indication of different applicants for the purpose of different Designated Offices must be shown on the Request portion of the international application.

(f) Changes in the person, name, or address of the applicant of an international application shall be made in accordance with PCT Rule 18.5.

33. By adding a new § 1.422 to read as follows:

§ 1.422 *When the inventor is dead.*

In case of the death of the inventor, the legal representative (executor, administrator, etc.) of the deceased inventor may file an international application which designates the United States of America.

34. By adding a new § 1.423 to read as follows:

§ 1.423 *When the inventor is insane or legally incapacitated.*

In case an inventor is insane or otherwise legally incapacitated, the legal representative (guardian, conservator, etc.) of such inventor may file an international application which designates the United States of America.

35. By adding a new § 1.424 to read as follows:

§ 1.424 *Joint Inventors.*

Joint inventors must jointly file an international application which designates the United States of America; the signature of either of them alone, or less than the entire number will be insufficient for an invention invented by them jointly, except as provided in § 1.425.

36. By adding a new § 1.425 to read as follows:

§ 1.425 *Filing by other than inventor.*

(a) If a joint inventor refuses to join in an international application which designates the United States of America or cannot be found or reached after diligent effort, the international application which designates the United States of America may be filed by the other inventor on behalf of himself or herself and the omitted inventor. Such an international application which designates the United States of America must be accompanied by proof of the pertinent facts and must state the last known address of the omitted inventor. The Patent and Trademark Office shall forward notice of the filing of the international application to the omitted inventor at said address.

(b) Whenever an inventor refuses to execute an international application which designates the United States of America, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action may file the international application on behalf of and as agent for the inventor. Such an international application which designates the United States of America, must be accompanied by proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, and must state the last known address of the inventor. The assignment, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must be filed in the Patent and Trademark Office. The Office shall forward notice of the filing of the application to the inventor at the address stated in the application.

37. By adding a new § 1.431 to read as follows:

§ 1.431 *International application requirements.*

(a) An international application shall contain, as specified in the Treaty and the Regulations, a Request, a description, one or more claims, an abstract, and one or more drawings (where required). (PCT Art. 3(2) and Section 207 of the Administrative Instruction.)

(b) An international filing date will be accorded by the United States Receiving Office, at the time of receipt of the international application, provided that:

(1) The applicant is a United States resident or national (35 U.S.C. 361(a), PCT Art. 11(1)(i)).

(2) The international application is in the English language (35 U.S.C. 361(c), PCT Art. 11(1)(ii)).

(3) The international application contains at least the following elements (PCT Art. 11(1)(iii)):

(i) an indication that it is intended as an international application (PCT Rule 4.2);

(ii) the designation of at least one Contracting State of the International Patent Cooperation Union;

(iii) the name of the applicant, as prescribed (note § 1.422);

(iv) a part which on the face of it appears to be a description; and

(v) a part which on the face of it appears to be a claim.

(c) Payment of the basic portion of the international fee (PCT Rule 15.2) and the transmittal and search fees (§ 1.445) shall be made in full at the time the international application papers required by paragraph (b) of this section are deposited. Failure to make full payment on the same date as the deposit of the international application papers required by subparagraph (b) of this section will result in the international application being considered withdrawn (PCT Art. 14(3)(a)).

38. By adding a new § 1.432 to read as follows:

§ 1.432 *Designation of States and payment of designation fees.*

(a) The names of Designated States shall appear in the Request upon filing and must be indicated as set forth in Section 201 of the Administrative Instructions.

(b) The designation fees may be paid upon filing of the international application, but must be paid at the latest before the expiration of one year from the priority date (PCT Rule 15.4(b)). Failure to timely pay the designation fee for a particular Designated State will result in the withdrawal of that designation (PCT Art. 14(3)(b)). Failure to timely pay at least one designation fee will result in the withdrawal of the international application (PCT Art. 14(3)(a)).

39. By adding a new § 1.433 to read as follows:

§ 1.433 *Physical requirements of international application.*

(a) The international application and each of the documents that may be referred to in the check list of the Request (PCT Rule 3.3(a)(ii)) shall be filed in one copy only.

(b) All sheets of the international application must be on A4 size paper (21.0 x 29.7 cm.).

(c) Other physical requirements for international applications are set forth in PCT Rule 11 and Sections 201–207 of the Administrative Instructions.

40. By adding a new § 1.434 to read as follows:

§ 1.434 *The Request.*

(a) The Request shall be made on a standardized printed form (PCT Rules 3 and 4). Copies of such printed Request forms are available from the Patent and Trademark Office. Letters requesting such forms should be marked "Box PCT."

(b) The Check List portion of the Request form should indicate each document accompanying the international application on filing.

(c) All information, for example, addresses, names of States and dates, shall be indicated in the Request as required by PCT Rule 4 and Administrative Instructions 110 and 201.

(d) International applications which designate the United Stat s of America shall include:

(1) The name, address and signature of the inventor, except as provided by §§ 1.421(d), 1.422, 1.423 and 1.425;

(2) A reference to any copending national application or international application designating the United States of America, if the benefit of the filing date for the prior copending application is to be claimed.

41. By adding a new § 1.435 to read as follows:

§ 1.435 *The description.*

(a) Requirements as to the content and form of the description are set forth in PCT Rules 5, 9, 10 and 11 and Administrative Instruction 204, and shall be adhered to.

(b) In international applications designating the United States the description must contain upon filing an indication of the best mode contemplated by the inventor for carrying out the claimed invention.

42. By adding a new § 1.436 to read as follows:

§ 1.436 *The claims.*

The requirements as to the content and format of claims are set forth in PCT Art. 6 and PCT Rules 6, 9, 10 and 11 and shall be adhered to. The number of the claims shall be reasonable, considering the nature of the invention claimed.

43. By adding a new § 1.437 to read as follows:

§ 1.437 *The drawings.*

(a) Subject to paragraph (b) of this section, when drawings are necessary for the understanding of the invention, or are mentioned in the description, they must be part of an international application as originally filed in the United States Receiving Office in order to maintain the international filing date during the national stage (PCT Art. 7).

(b) Drawings missing from the application upon filing will be accepted if such drawings are received within 30 days of the date of first receipt of the incomplete papers. If the missing drawings are received within the 30-day period, the international filing date shall be the date on which such drawings are received. If such drawings are not timely received, all references to drawings in the international application shall be considered non-existent (PCT Art. 14(2), Administrative Instruction 310).

(c) The physical requirements for drawings are set forth in PCT Rule 11 and shall be adhered to.

44. By adding a new § 1.438 to read as follows:

§ 1.438 *The abstract.*

(a) Requirements as to the content and form of the abstract are set forth in PCT Rule 8, and shall be adhered to.

(b) Lack of an abstract upon filing of an international application will not affect the granting of a filing date. However, failure to furnish an abstract within one month from the date of the notification by the Receiving Office will result in the international application being declared withdrawn.

45. By adding a new § 1.445 to read as follows:

§ 1.445 *International application filing and processing fees.*

(a) The following fees and charges are established by the Patent and Trademark Office under the authority of 35 U.S.C. 376:

(1) A transmittal fee (see 35 U.S.C. 361(d) and PCT Rule 14)------ $35.00

(2) A search fee (see 35 U.S.C. 361(d) and PCT Rule 16)------ $300.00

(3) A supplemental search fee when required (see PCT Art. 17(3)(a) and PCT Rule 40.2)-------- $200.00 per additional invention.

(4) The national fee, that is, the amount set forth as the filing fee under 35 U.S.C. 41(a)(1).

(5) A special fee when required (see 35 U.S.C. 372(c))------ $10.00 per claim.

(b) The basic fee and designation fee portions of the international fee shall be as prescribed in PCT Rule 15.

46. By adding a new § 1.446 to read as follows:

§ 1.446 *Refund of international application filing and processing fees.*

(a) Money paid for international application fees, where paid by actual mistake or in excess, such as a payment not required by law or Treaty and its Regulations, will be refunded.

(b) Refunds of a portion of the search fee may be made if the international search report is wholly or partly based on an earlier international or international-type search (PCT Rules 16 and 41). The amount of the refund will be as determined by the examiner according to the value of the prior international-type search or international search as 90%, 45% or 0% of the international search fee. If the amount of the refund is not a multiple of $5.00, it will be rounded to the next higher multiple of $5.00. See § 1.26 for refund of a portion of the international search fee during subsequent national examination of the application.

(c) Refund of the supplemental search fees will be made if such refund is determined to be warranted by the Commmissioner or the Commissioner's designee acting under PCT Rule 40.2(c).

(d) The international and search fees will be refunded if no international filing date is accorded (PCT Rules 15.6 and 16.2).

47. By adding a new § 1.451 to read as follows:

§ 1.451 *The priority claim and priority document in an international application.*

(a) The claim for priority must be made on the Request (PCT Rule 4.10) in a manner complying with Section 110 and 201 of the Administrative Instructions.

(b) Whenever the priority of an earlier United States national application is claimed in an international application, the applicant may request in a letter of transmittal accompanying the international application upon filing with the United States Receiving Office, that the Patent and Trademark Office prepare a certified copy of the national application for transmittal to the International Bureau (PCT Art. 8 and PCT Rule 17). The fee for preparing a certified copy is stated in § 1.21(b) and 35 U.S.C. 41(11).

(c) If a certified copy of the priority document is not submitted together with the international application on filing, or, if the priority application was filed in the United States and a request and appropriate payment for preparation of such a certified copy do not accompany the international application on filing, the certified copy of the priority document must be transmitted directly by the applicant to the International Bureau within the time limit specified in PCT Rule 17.1(a).

48. By adding a new § 1.455 to read as follows:

§ 1.455 *Representation in international applications.*

(a) Applicants of international applications may be represented by attorneys or agents licensed to practice before the Patent and Trademark Office or by a common representative (PCT Art. 49, Rules 4.8 and 90 and § 1.341).

(b) Appointment of an agent, attorney or common representative (PCT Rule 4.8) must be effected either in the

Request form, signed by all applicants, or in a separate power of attorney submitted either to the United States Receiving Office or to the International Bureau.

(c) Powers of attorney and revocations thereof should be submitted to the United States Receiving Office until the issuance of the international search report.

(d) The addressee for correspondence will be as indicated in Section 108 of the Administrative Instructions.

49. By adding a new § 1.461 to read as follows:

§ 1.461 *Procedures for transmittal of record copy to the International Bureau.*

(a) Transmittal of the record copy of the international application to the International Bureau shall be made, at the option of the applicant, either by the United States Receiving Office or by the applicant. Subject to paragraph (b) of this section, any applicant who chooses to make such transmittal personally shall notify the United States Receiving Office to that effect in writing, by way of a notice filed together with the international application. Such notice shall also state whether the applicant wishes to collect the record copy at the United States Receiving Office or to have the record copy mailed directly to him. The record copy of an international application which was filed without being accompanied by such notice will be transmitted to the International Bureau by the United States Receiving Office (PCT Rule 22).

(b) An applicant may transmit the record copy to the International Bureau as provided in PCT Rule 22.2 only if the international application is filed with the United States Receiving Office before the expiration of 11 months from the priority date.

(c) No copy of an international application may be transmitted to the International Bureau, a foreign Designated Office, or other foreign authority by the United States Receiving Office or the applicant, unless the applicable requirements of Part 5 of this chapter have been satisfied.

50. By adding a new § 1.465 to read as follows:

§ 1.465 *Timing of application processing based on the priority date.*

(a) For the purpose of computing time limits under the Treaty, the priority date shall be defined as in PCT Art. 2(xi).

(b) When a claimed priority date is cancelled under PCT Rule 4.10(d) or considered not to have been made under PCT Rule 4.10(b), the priority date for the purposes of computing time limits will be the date of the earliest valid remaining priority claim of the international application, or if none, the international filing date.

(c) When corrections under PCT Art. 11(2), Art. 14(2) or PCT Rule 20.2(a)(i) or (iii) are timely submitted, and the date of receipt of such corrections falls later than one year from the claimed priority date or dates, the Receiving Office shall proceed under PCT Rule 4.10(d).

51. By adding a new § 1.468 to read as follows:

§ 1.468 *Delays in meeting time limits.*

Delays in meeting time limits during international processing of international applications may only be excused as provided in PCT Rule 82. For delays in meeting time limits in a national application, see § 1.137.

52. By adding a new § 1.471 to read as follows:

§ 1.471 *Corrections and amendments during international processing.*

(a) All corrections submitted to the United States Receiving Office must be in the form of replacement sheets and be accompanied by a letter that draws attention to the differences between the replaced sheets and the replacement sheets, except that the deletion of lines of text, the correction of simple typographical errors, and one addition or change of not more than five words per sheet may be stated in a letter and the United States Receiving Office will make the deletion or transfer the correction to the international application, provided that such corrections do not adversely affect the clarity and direct reproducibility of the application (PCT Rule 26.4).

(b) Amendments of claims submitted to the International Bureau shall be as prescribed by PCT Rule 46.

53. By adding a new § 1.475 to read as follows:

§ 1.475 *Changes in person, name, or address of applicants and inventors.*

All requests for a change in person, name or address of applicants and inventor should be sent to the United States Receiving Office until the time of issuance of the international search report. Thereafter requests for such changes should be submitted to the International Bureau.

54. By adding § 1.481 to read as follows:

§ 1.481 *Determination of unity of invention before the International Searching Authority.*

(a) Before establishing the international search report, the International Searching Authority shall determine whether the international application complies with the requirement of unity of invention as set forth in PCT Rule 13 and as set forth in §§ 1.141 and 1.146 except as modified below in this section.

(b) If the International Searching Authority considers that the international application does not comply with the requirements of unity of invention, it shall inform the applicant accordingly and invite the payment of additional fees (note § 1.445 and PCT Art. 17(3)(a) and PCT Rule 40). The applicant will be given a time period in accordance with PCT Rule 40.3 to pay the additional fees due.

(c) In the case of non-compliance with unity of invention and where no additional fees are paid, the international search will be performed on the invention first mentioned ("main invention") in the claims.

(d) Lack of unity of invention may be directly evident before considering the claims in relation to any prior art, or after taking the prior art into consideration, as where a document discovered during the search shows the invention claimed in a generic or linking claim lacks novelty or is clearly obvious, leaving two or more claims joined thereby without a common inventive concept. In such a case the International Searching Authority may raise the objection of lack of unity of invention.

55. By adding § 1.482 to read as follows:

§ 1.482 *Protest to lack of unity of invention.*

(a) If the applicant disagrees with the holding of lack of unity of invention by the International Searching Authority, additional fees may be paid under protest, accompanied by a request for refund and a statement setting forth reasons for disagreement or why the required additional fees are considered excessive, or both (PCT Rule 40.2(c)).

(b) Protests under paragraph (c) of this section will be examined by the Commissioner or the Commissioner's designee. In the event that the applicant's protest is determined to be justified, the additional fees or a portion thereof will be refunded.

(c) An applicant who desires that a copy of the protest and the decision thereon accompany the international search report when forwarded to the Designated Offices, may notify the International Searching Authority to that effect any time prior to the issuance of the international search report. Thereafter, such notification should be directed to the International Bureau (PCT Rule 40.2(c)).

56. By adding a new § 3.56 to read as follows:

§ 3.56 *Oath to be filed with United States Designated Office under 35 U.S.C. 371(c)(4).*

As a below named inventor, being duly sworn (or affirmed), I depose and say that:

My residence, post office address and citizenship are as stated below next to my name;

I verily believe I am the original, first and sole inventor (if only one name is listed below) or a joint inventor (if plural inventors are named below) of the invention entitled: _____ described and claimed in international application number___ _____ filed _____, and as amended on _____ (if any), which I have reviewed and for which I solicit a patent:

I do not know and do not believe the same was ever known or used in the United States of America before my or our invention thereof, or patented or described in any printed

publication in any country before my or our invention thereof or more than one year prior to my international application, that the same was not in public use or on sale in the United States of America more than one year prior to my international application, that the invention has not been patented or made the subject of an inventor's certificate issued before the date of my international application in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than twelve months prior to my international application, that I acknowledge my duty to disclose information of which I am aware which is material to the examination of this application, and that no application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by me or my legal representatives or assigns except as follows: _____

_____

(Full name of sole or first inventor)

_____ Date _____

(Inventor's signature)

_____

(Residence)

_____

(Citizenship)

_____

(Post Office Address)

_____

_____

(Full name of second joint inventor, if any)

_____ Date _____

(Inventor's signature)

_____

(Residence)

_____

(Citizenship)

_____

(Post Office Address)

_____

(Supply similar information and signature for third and subsequent joint inventors)

_____ } ss:
_____

Sworn to and subscribed before me this _____ day of _____, 19____.

_____
(Signature of notary or officer)

[SEAL] _____
(Official character)

57. By adding a new § 3.57 to read as follows:

§ 3.57 *Declaration to be filed with United States Designated Office under 35 U.S.C. 371(c)(4).*

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name;

I verily believe I am the original, first and sole inventor (if only one name is listed below) or a joint inventor (if plural inventors are named below) of the invention entitled: _____ described and claimed in international application number _____ filed _____ and as amended on _____ (if any), which I have received and for which I solicit a patent;

I do not know and do not believe the same was ever known or used in the United States of America before my or our invention thereof, or patented or described in any printed publication in any country before my or our invention thereof or more than one year prior to my international application, that the same was not in public use or on sale in the United States of America more than one year prior to my international application, that the invention has not been patented or made the subject of an inventor's certificate issued before the date of my international application in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than twelve months prior to my international application, that I acknowledge my duty to disclose information of which I am aware which is material to the examination of this application, and that no application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by me or my legal representatives or assigns, except as follows: _____

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

_____

(Full name of sole or first inventor)

_____ Date _____

(Inventor's signature)

_____

(Citizenship)

_____

(Post Office Address)

_____

(Supply similar information and signature for third and subsequent joint inventors)

58. By revising § 5.1 to read as follows:

§ 5.1 *Defense inspection of certain applications.*

(a) The provisions of this part shall apply to both national and international applications filed in the Patent and Trademark Office and, with respect to inventions made in the United States, to applications filed in any foreign country or any international authority other than the United States Receiving Office. The (1) filing of a national or an international application in a foreign country or with an international authority other than the United States Receiving Office, or (2) transmittal of an international application to a foreign agency or an international authority other than the United States Receiving Office is considered to be a foreign filing within the meaning of Chapter 17 of Title 35, United States Code.

(b) In accordance with the provisions of 35 U.S.C. 181, patent applications containing subject matter the disclosure of which might be detrimental to the national security are made available for inspection by defense agencies as specified in said section. Only applications obviously relating to national security, and applications within fields indicated to the Patent and Trademark Office by the defense agencies as so related, are made available. The inspection will be made only by responsible representatives authorized by the agency to review applications. Such representatives are required to sign a dated acknowledgement of access accepting the condition that information obtained from the inspection will be used for no purpose other than the administration of 35 U.S.C. 181–188. Copies of applications may be made available to such representatives for inspection outside the Patent and Trademark Office under conditions assuring that the confidentiality of the applications will be maintained, including the conditions that: (a) all copies will be returned to the Patent and Trademark Office promptly if no secrecy order is imposed, or upon rescission of such order if one is imposed, and (b) no additional copies will be made by the defense agencies. A record of the removal and return of copies made available for defense inspection will be maintained by the Patent and Trademark Office. Applications relating to atomic energy are made available to the Department of Energy as specified in § 1.14 of this chapter.

59. By revising § 5.3 to read as follows:

§ 5.3 *Prosecution of application under secrecy order; withholding patent.*

Unless specifically ordered otherwise, action on the application by the Office and prosecution by the applicant will proceed during the time an application is under secrecy order to the point indicated in this section:

(a) National applications under secrecy order which come to a final rejection must be appealed or otherwise prosecuted to avoid abandonment. Appeals in such cases must be completed by the applicant but unless otherwise specifically ordered by the Commissioner will not be set for hearing until the secrecy order is removed.

(b) An interference will not be declared involving national applications under secrecy order. However, if an applicant whose application under secrecy order copies claims from an issued patent, a notice of that fact will be placed in the file wrapper of the patent.

(c) When the national application is found to be in condition for allowance except for the secrecy order the applicant and the agency which caused the secrecy order to be issued will be notified. This notice (which is not a notice of allowance under § 1.311 of this chapter) does not require response by the applicant and places the national application in a condition of suspension until the secrecy order is removed. When the secrecy order is removed the Patent and Trademark Office will issue a notice of allowance under § 1.311 of this chapter, or take such other action as may then be warranted.

(d) International applications under secrecy order will not be mailed, delivered or otherwise transmitted to the international authorities or the applicant. International applications under secrecy order will be processed up to the point where, if it were not for the secrecy order, record and search copies would be transmitted to the international authorities or the applicant.

60. Section 5.11 text and heading are revised to read as follows:

§ 5.11 *License for filing application in foreign country or for transmitting international application.*

(a) When no secrecy order has been issued under § 5.2, a license from the Commissioner of Patents and Trademarks under 35 U.S.C. 184 is required before filing any application for patent or for the registration of a utility model, industrial design, or model, in a foreign country, or transmitting an international application to any foreign patent agency or any international agency other than the United States Receiving Office, or causing or authorizing such filing or transmittal, with respect to an invention made in the United States, if:

The foreign application is to be filed or its filing caused or authorized before a national or international application for patent is filed in the United States, or

(2) The foreign application is to be filed, or its filing caused or authorized, or the transmittal of the international application is caused or authorized, prior to the expiration of six months from the filing of the application in the United States.

(b) When there is no secrecy order in effect, a license under 35 U.S.C. 184 is not required if:

(1) The invention was not made in the United States, or

(2) The foreign application is to be filed or the international application is to be transmitted, or its filing or transmittal caused or authorized, after the expiration of six months from the filing of the national application in the United States.

(c) When a secrecy order has been issued under § 5.2, an application cannot be filed in a foreign country, nor can an international application be transmitted to any agency other than the United States Receiving Office except in accordance with § 5.5.

61. By revising text of heading of § 5.13 to read as follows:

§ 5.13 *Petition for license; no corresponding application.*

Where there is no corresponding national or international application, the petition for license must be accompanied by a legible copy of the material upon which license is desired. This copy will be retained as a measure of the license granted. For assistance in the identification of the subject matter of each license so issued, it is suggested that the petition or requesting letter be submitted in duplicate and provide a title and other description of the material. The duplicate copy of the petition will be returned with the license or other action on the petition. Where an international application is being filed in the United States Receiving Office, the petition may accompany the international application.

62. By revising paragraphs (b) and (c) of § 5.14 to read as follows:

§ 5.14 *Petition for license; corresponding U.S. application.*

* * * * *

(b) Two or more United States applications should not be referred to in the same petition for license unless they are to be combined in the foreign or international application, in which event the petition should so state and the identification of each United States application should be in separate paragraphs.

(c) Where the application to be filed or transmitted abroad contains matter not disclosed in the United States application or applications, including the case where the combining of two or more United States applications introduces subject matter not disclosed in any of them, a copy of the application as it is to be filed in the foreign country or international application which is to be transmitted to a foreign international or national agency as it is to be filed in the Receiving Office must be furnished with the petition. If, however, all new matter in the foreign or international application to be filed is readily identifiable, the new matter may be submitted in detail and the remainder by reference to the pertinent United States application or applications.

63. By revising § 5.15(a) to read as follows:

§ 5.15 *Scope of license.*

(a) A license to file an application in a foreign country or transmit an international application to any foreign or international agency other than the United States Receiving Office, when granted, includes authority to forward all duplicate and formal papers to the foreign country or international agencies and to make amendments and take any action in the prosecution of the foreign or international application, provided subject matter additional to that covered by the license is not involved. In those cases in which no license is required to file the foreign application or transmit the international application, no license is required to file papers in connection with the prosecution of the foreign or international application not involving the disclosure of additional subject matter. Any paper filed abroad or with an international agency following the filing of a foreign or international application which involves the disclosure of additional subject matter must be separately licensed in the same manner as a foreign or international application.

* * * * *

64. By revising § 5.17 to read as follows:

§ 5.17 *Who may use license.*

Licenses may be used by anyone interested in the foreign filing or international transmittal for or on behalf of the inventor or the inventor's assigns.

AUTHORITY: 35 U.S.C. 6, Public Law 94-131 (89 Stat. 685).

Date: April 25, 1978.

LUTRELLE F. PARKER,
Acting Commissioner of Patents, and Trademarks.

Approved: May 5, 1978.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

(This rule promulgation is being printed in the OFFICIAL GAZETTE without using the arrow and bracket format to show additions and deletions because of the substantial rewriting of many of the rules and in view of the short time period available before printing.)

Set V of Addenda to the Classification Definitions

The definitions of the classes listed below were modified by addenda as part of Classification Orders 594 to 604 issued between July 1, 1977 and September 30, 1977. All of these addenda have been consolidated into Set V of "Addenda to the Classification Definitions."

January–March 1978 Classification Orders

The reclassifications covered by the following classification changes became effective between January and March 1978.

	Class	*Subclasses*
Classification Order 612, effective January 3, 1978:		
Abolished	340	173; 173.1; 173.2; 174.
Established	(New) 365	1–244.
Classification Order 613, effective February 3, 1978:		
Abolished	235	61.5–61.12.
Established	235	400–495.
Classification Order 614, effective February 7, 1978:		
Abolished	73	388; 389; 391–420.
Established	73	700–756.
Classification Order 615, effective February 8, 1978:		
Abolished	219	59: 76; 78; 86; 91; 117; 124; 125; 130; 131; 135; 145; 146.
Established	219	56.1; 56.21; 56.22; 59.1; 60.2; 61.1; 61.11–61.13; 61.2; 61.3; 61.4; 61.5; 61.6; 61.7; 73.1; 73.11; 73.2; 73.21; 76.1; 76.11–76.17; 78.01; 78.02; 78.11–78.16; 86.1; 86.21–86.25; 86.31–86.33; 86.41; 86.51 86.61; 86.7; 86.8; 86.9; 91.1; 91.2; 91.21–91.23; 117.1; 124.01–124.03; 124.1; 124.21; 124.22; 124.31–124.34; 124.4; 124.5; 125.1; 125.11; 125.12; 130.01; 130.1; 130.21; 130.31–130.33; 130.4; 130.5; 130.51; 137.2; 137.31; 137.41–137.44; 137.51; 137.52; 137.61–137.63; 137.7; 137.71; 137.8; 137.9; 145.1; 145.21–145.23; 145.31; 145.32; 145.41; 146.1; 146.21–146.24; 146.3; 146.31; 146.32; 146.41; 146.51; 145.52.
Classification Order 616, effective March 1, 1978:		
Abolished	273	130–137; 152–152.7.
Established	273	236–309.
Classification Order 617, effective March 2, 1978:		
Abolished	19	155; 156; 156.1–156.4.
	425	80–83.
Established	19	296–308.
	425	80.1; 81.1; 82.1; 83.1.
Classification Order 618, effective March 3, 1978:		
Established	526	323.1; 323.2.
Title change	526	321.
Classification Order 619, effective March 6, 1978:		
Established	235	375–386.
Classification Order 620, effective March 6, 1978:		
Abolished	4	8; 10–110.
Established	4	113.1; 114.1; 144.1–144.4; 222.1; 300–442.
	308	6.1.
Classification Order 621, effective March 9, 1978:		
Abolished	350	1–3; 3.5; 4–7; 96; 160; 161.
Established	350	1.1–1.7; 3.60–3.86; 4.1; 4.2; 6.1–6.91; 96.10–96.34; 330–352; 353–363.
Classification Order 622, effective March 22, 1978:		
Abolished	40	28–106.54; 125–145.
Established	40	361–624 and 900–907.
Classification Order 623, effective March 24, 1978:		
Abolished	7	All.
Established	(New) 7	100–170. Cross reference art collection. 900; 901.
Classification Order 624, effective March 30, 1978:		
Abolished	106	287.
Established	106	287.1–287.35. Cross reference art collection. 900; 901.

Subscription Pricing

The U.S. Government Printing Office advises that effective immediately, the subscription price of the OFFICIAL GAZETTE, Patents, has been changed as indicated below:

Subscription Price: $200.00 per annum domestic; $250.00 foreign
Single Copy Price: $4.00 domestic; $5.00 foreign

The above applies to non-priority mailings. This subscription will also be mailed at first-class rates of $300.00 domestic. Foreign first-class rates will be furnished upon request. All correspondence should be addressed to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

The subscription price of the OFFICIAL GAZETTE, Trademarks, has not been changed and remains at $88.40 per annum, domestic. Foreign mailing is $22.10 additional. Single copies are $1.70 each.

RICHARD J. SHAKMAN,
Assistant Commissioner for Administration.

May 9, 1978.

Regulations Relating to the Use of Patent and Trademark Office Records Facilities

Establishment of Enforcement Procedures

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice.

SUMMARY: The Patent and Trademark Office is adopting procedures for enforcing existing regulations governing the use of the Public Search Room for Patents and the Patent Examining Group Search Facilities by members of the public. Enforcement of the existing regulations is necessary, and is intended by these procedures, to carry out the commitment of the Office to the public to promote an atmosphere conducive to research and maintain the integrity of the files in the Public Search Room for Patents and in the Examining Group Search Facilities.

EFFECTIVE DATE: 6-30-78.

FOR FURTHER INFORMATION CONTACT: Bradford R. Hunter, Deputy Assistant Commissioner for Administration, Patent and Trademark Office, Washington, D.C. 20231, (703) 557-2290.

SUPPLEMENTARY INFORMATION: The procedures will apply in enforcing the regulations for the public use of records of the Public Search Room for Patents and the Patent Examining Group Search Facilities. The regulations of the Public Search Room for Patents were published in the Federal Register for July 14, 1976, 41 F.R. 29009, and incorporated in a Search Room User Agreement entered into by each person who is issued a User Pass. Regulations for Users of the Patent Examining Group Search Facilities were established under Rule 2 of the regulations of the Public Search Room for Patents and were published in the OFFICIAL GAZETTE of March 22, 1977, 956 O.G. 1118. The procedures appear below.

PROCEDURES FOR ENFORCEMENT OF THE REGULATIONS FOR THE PUBLIC USE OF RECORDS IN THE PUBLIC SEARCH ROOM FOR PATENTS AND THE PATENT EXAMINING GROUP SEARCH FACILITIES

Under applicable statutes and regulations, including 40 U.S.C. 486(c); 41 CFR 101-20.3; and appropriate sections of Department Organization Orders 30-3A and 30-3B of the Department of Commerce, the procedures appearing below are established.

VIOLATION INVOLVING THE SECURITY SYSTEM

1. *Unauthorized removal of government property.*

(a) The Public Search Room for Patents is equipped with a security system designed to sound an alarm when an attempt to remove government property from the Public Search Room is detected. Each alarm signal triggered by a person passing through an exit to the Public Search Room will be investigated by security guards stationed at the Public Search Room exits. The person involved will be required to stop and allow the security guards to determine the cause of the alarm. If non-government property is the cause for the alarm, the person will be allowed to proceed without further delay. If unauthorized possession of government property is found to be the cause of the alarm, the person in whose possession the property is found will be advised that a violation has occurred and will be required to surrender the property to the Manager of the Public Search Room. An oral explanation for the possession of such property will be requested by the Manager.

(b) The Manager of the Public Search Room will immediately report each incident involving unauthorized possession of government property to the Deputy Assistant Commissioner for Administration by telephone, and if requested submit a written report, together with the government property and User Pass involved to the Deputy Assistant Commissioner for Administration.

(3) If it shall appear to the Deputy Assistant Commissioner for Administration that unauthorized possession of government property, detected by the security system, was inadvertent or otherwise unintentional, no further action will be taken. Otherwise, the Deputy Assistant Commissioner for Administration will request the person involved to show cause in writing why his or her User Pass should not be suspended or revoked pursuant to the terms of the Search Room User Agreement. A written decision will be rendered by the Deputy Assistant Commissioner for Administration after consideration of any timely submitted response.

OTHER VIOLATIONS OF THE PUBLIC SEARCH ROOM REGULATIONS

2. *All other violations of the Public Search Room Regulations.*

(a) Each observed or reported violation will be investigated by the Manager of the Public Search Room. If a violation has occurred and is not denied, the person involved will be verbally requested by the Manager to comply with the regulations. If the person involved denies that a violation has occurred, or refuses to comply with a verbal request of the Manager to comply with the regulations, or violates the regulations after having agreed to comply with them, the person will be required to surrender his or her User Pass to the Manager of the Public Search Room.

(b) The Manager of the Public Search Room will submit a written report of each violation, and the User Pass, if surrendered, to the Deputy Assistant Commissioner for Administration.

(c) If the Deputy Assistant Commissioner for Administration is satisfied that a reported violation was inadvertent or otherwise unintentional, the User Pass, if surrendered, will be returned and no further action will be taken. In all other cases, the Deputy Assistant Commissioner for Administration will request the person involved to show cause in writing why his or her User Pass should not be suspended or revoked pursuant to the terms of the Search Room User Agreement. A written decision will be rendered by the Deputy Assistant Commissioner for Administration after consideration of any timely submitted response.

VIOLATIONS OF THE PATENT EXAMINING GROUP SEARCH FACILITIES REGULATIONS

3. *Violations of the Regulations for Users of the Patent Examining Group Search Facilities.*

(a) Each observed or reported violation will be investigated by Authorized Official. If a violation has occurred, and is not denied, the person involved will be verbally requested to comply with the regulations. If the person involved denies that a violation has occurred, or refuses to comply with a verbal request to comply with regulations, or violates the regulations after having agreed to comply with them, the person involved will be required to surrender his or her User Pass to the Authorized Official.

(b) The Authorized Official will submit a written report of each violation, and the User Pass, if surrendered, to the Deputy Assistant Commissioner for Patents.

(c) If the Deputy Assistant Commissioner for Patents is satisfied that violation was inadvertent or otherwise unintentional, the User Pass, if surrendered, will be returned and no further action will be taken. In all other cases, the

Deputy Assistant Commissioner for Patents will request the person involved to show cause in writing why his or her User Pass should not be suspended or revoked. A written decision will be rendered by the Deputy Assistant Commissioner for Patents after consideration of any timely submitted response.

PENALTIES

4. *Factors to be Considered in Assessing Penalties.*

(a) Penalties will be determined on a case-by-case basis. A record of penalties imposed for given violations will be kept and made available to the public upon request.

(b) Due weight may be given to prior violations of the regulations in assessing whether any given violation is willful, deliberate or intentional.

(c) Prior violations of the regulations will be considered in determining any specific penalty to be imposed. Depending upon the circumstances, the penalty for a first offense may range from an oral or written warning to a 60-day suspension of the User Pass. For a second offense, the penalty may be a suspension of from 5 days to 1 year. For a third offense, the penalty may range from a 30-day suspension to revocation of the User Pass.

GENERAL PROVISIONS

5. *Use of Search Facilities During Suspension or After Revocation of User Pass.*

No individual will be permitted to use the Public Search Room for Patents or the Patent Examining Group Search Facilities while his or her User Pass is suspended or revoked.

6. *Temporary User Pass.*

Any person whose User Pass was surrendered, but not suspended or revoked, may be issued a temporary User Pass which shall be valid until the User Pass is returned or a decision is rendered pursuant to paragraph 1(c), 2(c), 3(c).

7. *Absence of the Deputy Assistant Commissioner for Administration.*

In the absence of the Deputy Assistant Commissioner for Administration, the Director of the Office of Patent and Trademark Services will carry out the functions and responsibilities assigned to the Deputy Assistant Commissioner for Administration in paragraph 1(b) and (c) and 2(b) and (c).

8. *Absence of the Manager of the Public Search Room.*

In the absence of the Manager of the Public Search Room, the Acting Manager will carry out the duties and responsibilities assigned to the Manager in paragraphs 1(a), 1(b), 2(a) and 2(b).

9. *Assistance.*

The Manager of the Public Search Room and the Authorized Official may, when necessary request the Security Officer of the Patent and Trademark Office or the GSA to provide assistance in carrying out their functions in paragraphs 1(a), 2(a), and 3(a).

10. *Petitions.*

A decision rendered by the Deputy Assistant Commissioner for Administration, the Director of the Office of Patent and Trademark Services, or the Deputy Assistant Commissioner for Patents may be reviewed on petition to the Commissioner.

LUTRELLE F. PARKER,
May 5, 1978. *Acting Commissioner of Patents and Trademarks.*

Patent Cooperation Treaty Information

For information concerning the PCT including the amounts of the fees thereunder and the States that may be designated in International applications consult the Notice entitled "Patent Cooperation Treaty (PCT) Implementation: Information for Prospective Applicants" appearing in the OFFICIAL GAZETTE of May 16, 1978.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

Application in more than one class

SN 64,093. Rosti Plastic A/S, Roskilde, Denmark. Filed Sept. 25, 1975.

ROSTI

Class 8—Hand Tools

For Cutlery and Eating and Serving Utensils—Namely, Knives, Forks, and Spoons Made of Plastic (U.S. Cl. 23).

Class 21—Housewares and Glass

For Tableware—Namely, Cups, Saucers, Platters, Bowls and Dishes Made of Plastic (U.S. Cl. 2).

First use January 1945; in commerce 1963.

SN 64,796. Hanae Mori, Minato-ku, Tokyo, Japan. Filed Oct. 2, 1975.

HANAE MORI

Owner of U.S. Reg. No. 833,720.

Class 3—Cosmetics and Cleaning Preparations

For Perfume (U.S. Cl. 51).

First use in or about January 1969; in commerce in or about February 1969.

Class 16—Paper Goods and Printed Matter

For Pens (U.S. Cl. 37).

First use October 1974; in commerce October 1974.

Class 24—Fabrics

For Sheets, Pillow Cases, Towels and Wash Cloths (U.S. Cl. 42).

First use in or about 1968; in commerce in or about 1968.

SN 70,504. The Streakers International Incorporated, Mississauga, Ontario, Canada, by change of name from CTS Industrial Supplies Limited, Mississauga, Ontario, Canada. Filed Dec. 1, 1975.

Priority claimed under Sec. 44(d) on Canadian application filed June 18, 1975; Reg. No. 216,611, dated Oct. 15, 1976. The lining on the drawing is for shading purposes only and does not represent color.

Class 35—Advertising and Business

For Printing Services (U.S. Cl. 101).

Class 39—Transportation and Storage

For Services of Delivering Tools, Industrial Equipment and Office Supplies, by Vehicle (U.S. Cl. 105).

SN 76,796. Durasurf, Inc., Westwood, N.J. Filed Feb. 9, 1976.

DURASURF

Class 7—Machinery

For Machines and Machine Tools—Namely, Engine Parts for Gasoline or Diesel Engines, Transmission Parts, Hydraulic Pump Components, Cutting Tools, Hobs Used for Cutting Gears and the Like for Vehicles Movable by Air or Water (U.S. Cl. 23).

Class 12—Vehicles

For Engine and Transmission Parts for Vehicles Movable by Land (U.S. Cl. 19).

First use at least as early as June 11, 1974.

SN 76,864. Lebanon Chemical Corporation, Lebanon, Pa. Filed Feb. 10, 1976.

The drawing is lined for the color green. Owner of Reg. No. 617,694.

Class 1—Chemicals

For Fertilizers (U.S. Cl. 10).

Class 5—Pharmaceuticals

For Herbicides and Pesticides (U.S. Cl. 6).

First use on or before Dec. 1, 1974.

SN 89,476. Treasure Sensor Corporation, Dallas, Tex. Filed June 7, 1976.

TREASURE SENSOR

Without waiving any common law rights therein, applicant disclaims the use of the word "Sensor" apart from the mark as shown.

Class 9—Electrical and Scientific Apparatus

For Electronic Mineral and Metal Detectors and Accessories—Namely, Headphones and Search Coils (U.S. Cl. 26).

Class 20—Furniture and Articles Not Otherwise Classified

For Plastic Ground Markers for Use With Electronic Mineral and Metal Detectors (U.S. Cl. 50).

First use at least as early as Mar. 1, 1976.

SN 89,578. Treasure Sensor Corporation, Dallas, Tex. Filed June 7, 1976.

treasure
SENSOR

Without waiving any common law rights therein, the use of the word "Sensor" apart from the rest of the mark as shown is disclaimed.

Class 9—Electrical and Scientific Apparatus

For Electronic Mineral and Metal Detectors and Accessories—Namely, Headphones and Search Coils (U.S. Cl. 26).

Class 20—Furniture and Articles Not Otherwise Classified

For Plastic Ground Markers for Use with Electronic Mineral and Metal Detectors (U.S. Cl. 50).

First use at least as early as Mar. 24, 1976.

SN 91,200. J. C. Penney Company, Inc., New York, N.Y. Filed June 21, 1976.

CANCEL-STAT

Class 24—Fabrics

For Knitted Fabric (U.S. Cl. 42).

Class 25—Clothing

For Clothing—Namely, Uniforms (U.S. Cl. 39).

First use June 25, 1975.

SN 93,619. Waldman Corporation, Parsippany, N.J. Filed July 16, 1976.

waldman

Owner of Reg. Nos. 830,171 and 895,320.

Class 6—Metal Goods

For Harware—Namely, Connector Pins, Shafts, Bushings, Screws, Nuts, Stop Pins, Plungers and Heat Sinks (U.S. Cl. 13).

Class 14—Jewelry

For Rotary Switches for Digital Watches, Battery Covers for Digital Watches, Command Buttons for Digital Watches, and Push-Pull Switches for Digital Watches (U.S. Cl. 27).

First use May 1966.

SN 96,144. J. G. Pieri Co., Inc., Buffalo, N.Y. Filed Aug. 10, 1976.

BESTASTE

Class 1—Chemicals

For Anti-Oxidant Used in the Manufacture of Food (U.S. Cl. 46).

Class 29—Meats and Processed Foods

For Dehydrated Soup Bases and Mixes, Grated Cheese, Powdered Eggs, Applesauce, Pureed Meat and Poultry, Salad Dressing, Mayonnaise, Fish, Clams, Canned Fruits, Canned Meats, Jellies, Edible Oils, Shortening, Olives, Peanut Butter, Pickles, Canned Vegetabels, Frozen Vegetables, Tomatoes, Tomato Puree and Tomato Paste (U.S. Cl. 46).

Class 30—Staple Foods

For Catsup, Pudding, Gelatin Desserts, Condiment Relishes, Vinegar, Horseradish, Salad Mustard, Sauces, Salt and Spices (U.S. Cl. 46).

Class 32—Light Beverages

For Fruit Juices, Tomato Juice and Clam Juice (U.S. Cl. 46).

First use June 1905.

SN 103,181. Healthy Eyes Program Corporation, Davenport, Iowa. Filed Oct. 14, 1976.

Class 35—Advertising and Business

For Advertising Agency Services Rendered to Optometrists (U.S. Cl. 101).

Class 41—Education and Entertainment

For Educational Services in the Field of Optometry (U.S. Cl. 107).

First use Sept. 10, 1976.

SN 103,422. Dietz-Armaturen Gesellschaft mit beschrankter Haftung, Bergisch-Gladbach, Germany. Filed Oct. 18, 1976.

Owner of German Reg. No. 914,831, dated Feb. 8, 1974.

Class 6—Metal Goods

For Pipe Joints (U.S. Cl. 14).

Class 9—Electrical and Scientific Apparatus

For Automatic Shut-Off Valves (U.S. Cl. 13).

Class 11—Environmental Control Apparatus

For Water Faucets, Heads for Spray Rinse, Shower Heads, Spray Nozzles, Distributor Nozzles, and Nozzles for Admixing a Cleaning Medium, Filtering Devices for Cleaning Liquids, All of Said Goods for Water Pipes and Sanitary Installations (U.S. Cl. 31).

Class 21—Housewares and Glass

For Cleaning Brushes With Rinsing Units and Similar Cleaning Units for All Cleaning Purposes in Households, Trade, Industry, and Restaurants (U.S. Cl. 29).

SN 103,647. Szabo Food Service, Inc., Lyons, Ill. Filed Oct. 18, 1976.

Owner of Reg. No. 934,645.

Class 35—Advertising and Business

For Operation of Restaurants and Cafeterias of Others in Commercial, Industrial and Institutional Buildings (U.S. Cl. 101).

Class 42—Miscellaneous

For Operation of Vending Services for the Dispensing of Food, Beverages, and Other Goods by Machines in Commercial, Industrial and Institutional Buildings (U.S. Cl. 100).

First use Apr. 5, 1976.

SN 104,402. LPL Industries, Inc., City of Industry, Calif. Filed Oct. 26, 1976.

BESTEEL

Class 6—Metal Goods

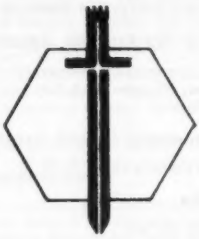
For Buildings and Components Thereof (U.S. Cl. 12).

Class 37—Construction and Repair

For Rendering Services in the Design and Construction of Buildings (U.S. Cl. 103).

First use 1957.

SN 106,074. Forward Industries, Inc., Brooklyn, N.Y. Filed Nov. 10, 1976.



Owner of German Reg. No. 914,831, dated Feb. 8, 1974.

Class 16—Paper Goods and Printed Matter

For Diaries, Atlases, Calendars, Memo Books, Appointment Calendars, Paper Portfolios, Loose Leaf Binders, Loose Leaf Business Card Files, Telephone Index Books, Desk Calendars, Clip Boards, Correspondence Folders, Monthly or Weekly Activities Planners for the Desk, Pocket Monthly or Weekly Activities Planners, Pen and Pencil Holders for the Pocket, Pocket Portfolios, and Playing Card Cases (U.S. Cls. 22, 37, and 38).

Class 18—Leather Goods

For Suitcases, Wallets, Travel Cases, Hand Bags, Attache Cases, Valet Bags, Brief Case Type Portfolios, Key Cases, Credit Card Wallets, Money Clips Made of Leather Appearing Material, Passport Cases, and Luggage Tags (U.S. Cl. 3).

First use June 3, 1974.

SN 106,495. Geoservices, Paris, France. Filed Nov. 15, 1976.

TDC

Class 9—Electrical and Scientific Apparatus

For Measuring, Recording, and Data Processing Instruments and Apparatus Used in Controlling and Monitoring Drilling Operations for Subsoil Substances (U.S. Cl. 26).

Class 16—Paper Goods and Printed Matter

For Graphs, Drawings, Photographs, and Diagraphic Charts to Record the Results and to Aid in the Interpretation of Recorded Measurements in Controlling Drilling Operations for Subsoil Substances (U.S. Cl. 37 and 38).

Class 37—Construction and Repair

For Custom Construction and Repair of Measuring, Recording, and Data Processing Instruments and Apparatus Used in Controlling Operations for Subsoil Substances and Construction Supervision for Drilling Operation of Subsoil Substances (U.S. Cl. 103).

First use 1972; in commerce March 1973.

SN 109,168. Ruko of Canada Limited, Streetsville, Ontario, Canada. Filed Dec. 10, 1976.

RUKO

Priority claimed under Sec. 44(d) on Canadian application filed Aug. 23, 1976; Reg. No. 224,025, dated Nov. 4, 1977. Owner of U.S. Reg. Nos. 991,799 and 1,054,987.

Class 4—Lubricants and Fuels

For Oil for Knives and Hatchets (U.S. Cl. 15).

Class 8—Hand Tools

For Diving Knives, Hunting Knives, Pocket Knives, Household Knives, Scissors, Shears, Hatchets and Axes, and Sharpening Stones for Knives and Hatchets (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Compasses, Binoculars, Pedometers; Rifle Scopes and Related Accessories; Goggles and Lenses, and Straps for Goggles (U.S. Cl. 21).

Class 11—Environmental Control Apparatus

For Under Water Flashlights (U.S. Cl. 21).

Class 12—Vehicles

For Bicycles (U.S. Cl. 19).

Class 13—Firearms

For Firearms—Namely, Rifles, Shotguns, Trapguns, Pistols, Revolvers and Ammunition and Pellets for Same, Recoil Pads for Starter Pistols and Revolvers, and Blanks and Flares for Same (U.S. Cl. 9).

Class 14—Jewelry

For Stop Watches (U.S. Cl. 27).

Class 20—Furniture and Articles Not Otherwise Classified

For Display Stands (U.S. Cl. 32).

Class 25—Clothing

For Snow Ski Suits, Snow Ski Boots, Boot Fittings for Snow Ski Boots and Snow Skis; and Hiking Boots (U.S. Cl. 39).

Class 28—Toys and Sporting Goods

For Diving Equipments—Namely, Face Masks, Fins, Nose Clips, Ear Stopples, Straps for Masks, Snorkels, Spear Guns; Tennis Rackets, Squash Rackets, Hand Grips for Rackets, Soccer Balls, Snow Ski Poles, Sling Shots, and Snow Ski Harnesses (U.S. Cl. 22).

SN 110,972. Hernandez Perez Hermanos, S.A., Molina de Segura, Murica, Spain. Filed Dec. 28, 1976.

The Spanish term "La Molinera" is literally translated as "the miller's wife." The drawing is fanciful, and is not a representation of a particular living individual. Owner of Spanish Reg. No. 490,931, dated May 6, 1976.

Class 29—Meats and Processed Foods

For Dried Fruit, Canned Vegetables, Fruit in Syrup, Fruit Preserves and Marmalade (U.S. Cl. 46).

Class 30—Staple Foods

For Paprika, Saffon, Yellow Seasoning, Pepper, Cinnamon, Cloves and Fig Cake (U.S. Cl. 46).

SN 114,229. Armak Company, Chicago, Ill. Filed Jan. 31, 1977.

AKCEL

Class 1—Chemicals

For Microporus Synthetic Thermoplastic Polymers (U.S. Cl. 6).

Class 7—Machinery

For Filters and Membranes of Thermoplastic Polymers for Scientific Purposes (U.S. Cl. 31).

First use in or before Oct. 25, 1976.

SN 114,232. Armak Company, Chicago, Ill. Filed Jan. 31, 1977.

AKZEL

Class 1—Chemicals

For Microporous Synthetic Thermoplastic Polymers (U.S. Cl. 6).

First use on or about Jan. 24, 1977.

Class 9—Electrical and Scientific Apparatus

For Filters and Membranes of Thermoplastic Polymers for Scientific Purposes (U.S. Cl. 31).

First use on or about Oct. 25, 1976.

SN 117,608. Welders Supply Company, Little Rock, Ark. First use on or about Oct. 25, 1976.

WELSCO

Class 1—Chemicals

For Acetylene, Argon, Carbon Dioxide, Helium, Hydrogen, Nitrogen and Oxygen Gases, and Welding Fluxes (U.S. Cl. 6).

Class 9—Electrical and Scientific Apparatus

For Welding Electrodes, Welders' Goggles and Welders' Gloves (U.S. Cl. 21).

Class 42—Miscellaneous

For Distributorship Services in the Field of Welding Equipment and Welding Supplies (U.S. Cl. 101).

First use Sept. 1, 1976.

SN 123,037. Louis-Guy D Inc., New York, N.Y. Filed Apr. 18, 1977.

LOUIS-GUY D

"Louis-Guy D" is not the name of any living individual.

Class 16—Paper Goods and Printed Matter

For Instructional Charts Used for Providing Personalized Instruction in the Application of Make-Up (U.S. Cl. 38).

Class 42—Miscellaneous

For Providing Personalized Make-Up Consultations for Individuals (U.S. Cl. 100).

First use March 1977.

SN 124,274. The National Football Foundation and Hall of Fame, Inc., New York, N.Y. Filed Apr. 26, 1977.

Class 36—Insurance and Financial

For Financial Services—Namely, Offering Scholarships to Assist Scholar-Athletes by Means of Grants for Further Study (U.S. Cl. 102).

Class 41—Education and Entertainment

For Educational Services—Namely, Disseminating Information Pertaining to Amateur Football (U.S. Cl. 107).

First use May 1955.

SN 125,064. Feinwerkbau Westinger & Altenburger KG, Oberndorf, Germany. Filed May 2, 1977.

Priority claimed under Sec. 44(d) on German application filed Nov. 4, 1976; Reg. No. 954,293, dated Jan. 31, 1977. The lining on the drawing does not indicate color but merely reproduces the design of the mark as used.

Class 9—Electrical and Scientific Apparatus

For Mechanical, Electromechanical, and Electrical Counting Apparatus—Namely, Impulse Counters for Use in Event Counting Applications Where Events To Be Counted are Represented by Mechanical or Electrical Pulses (U.S. Cl. 26).

Class 13—Firearms

For Air Rifles and Air Pistols—Namely, Match Weapons and Small Caliber Weapons for Use in Target Practice and Shooting Matches (U.S. Cl. 9).

SN 127,005. Gaylord Bros., Inc., Liverpool, N.Y. Filed May 18, 1977.

GAYLORD LIBRARY SYSTEMS

The words "Library Systems" are disclaimed apart from the mark as shown. Owner of Reg. Nos. 798,090, 800,368, and others.

Class 35—Advertising and Business

For Circulation Control Services for Library Holdings of Books and Related Articles—Namely, Leasing, Installing, and Maintaining Circulation Control Systems, Developing Coded Listings of Library Holdings and Up-Dating Such Listings, Maintaining and Automatically Up-Dating Inventory Listings of Library Holdings, and Automatic Processing and Reporting of Circulation Data and Related Information of Libraries by a Host Computer at a Central Station Servicing Plural Remote Circulation Control System Installations (U.S. Cl. 101).

First use at least as early as July 1975.

Class 38—Communication

For Providing Automated Communications From a Central, Host Computer to Remote Circulation Control System Installations for Supplying Circulation Data and Related Information, From Said Remote Installations to Said Central, Host Computer for Automated Processing of Such Data and Related Information and Preparing Notices and Reports Thereon for Electrical Transmission of Such Notices and Reports to Remote Circulation Control System Installations, and Printing and Mailing Such Printed Notices and Reports (U.S. Cl. 104).

First use at least as early as Oct. 5, 1976.

SN 129,261. Pako Photo, Inc., Minneapolis, Minn. Filed June 6, 1977.

Class 40—Material Treatment

For Film Processing Services (U.S. Cl. 101).

Class 42—Miscellaneous

For Camera and Camera Supply Retail Store Services (U.S. Cl. 106).

First use May 15, 1976.

SN 129,806. Lawrence R. Salis, d.b.a. Salis International, Hollywood, Fla. Filed June 9, 1977.

DR. PH. MARTIN'S

"Dr. Ph. Martin" is a fictious name and is not the name of any living person.

Class 2—Paints

For Artist Paints, Water Colors and Drawing Paints (U.S. Cl. 16).

Class 16—Paper Goods and Printed Matter

For Pens, Cartridges for Pens and Mixing Palets (U.S. Cls. 23 and 37).

First use at least as early as 1923.

SN 130,663. Famous Recipe Fried Chicken, Inc., Cincinnati, Ohio. Filed June 16, 1977.

BRING HOME THE GOOD TASTE

Class 29—Meats and Processed Foods

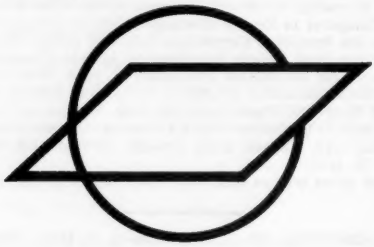
For Ready-To-Eat Chicken, Fish and Shrimp, Mashed Potatoes, Baked Beans, Bean Salad, Potato Salad and Cole Slaw, for Consumption on or Off the Premises (U.S. Cl. 46).

Class 42—Miscellaneous

For Restaurant Services, Food Carryout Services and Catering Services (U.S. Cl. 100).

First use May 4, 1977.

SN 131,206. Spiegelunion Flabeg GmbH, Fuerth, Germany. Filed June 20, 1977.



Owner of German Reg. No. 915,441, dated Feb. 14, 1972.

Class 20—Furniture and Articles Not Otherwise Classified

For Table Tops Made of Glass; Mirrors—Namely, Hand Mirrors, Adjustable Mirrors, Shaving Mirrors, Cosmetic Mirrows, Framed Panel-Type Decorative and Household Mirrors, Stand Mirrors, and Pocket Mirrors (U.S. Cl. 32).

Class 21—Housewares and Glass

For Smoothed and/or Polished Plate Glass; Silvered Glass for Use in the Manufacture of Automotive Rear View Mirrors; Tableware—Namely, Ornamented Glass Cups and Plates; Toilet Articles Made at Least in Part of Glass and/or Plastic—Namely, Brushes, Combs, Tumblers, Cups, Soap Boxes, Soap Dishes, Cotton Dispensers, Paper Tissue Dispensers, Toothbrush Holders, Containers for Toilet Articles, Toilet Bags; and Sets of the Foregoing Items (U.S. Cls. 2, 29, 33, and 40).

SN 132,354. Ryder International Corporation, d.b.a. Kestrel Division, Barrington, Ill. Filed June 30, 1977.

KESTREL

Class 11—Environmental Control Apparatus

For Sterilizers for Contact Lens (U.S. Cl. 44).

Class 42—Miscellaneous

For Engineering, Design and Consulting Services Relating to the Molding and Assembly of Plastic Parts and Products for Industrial, Home and Medical Use (U.S. Cl. 100).

First use at least as early as January 1977.

SN 133,033. The Slosman Corporation, d.b.a. Ness Sanitary Wiper Company, Asheville, N.C. Filed July 6, 1977.

NESS DISPOSABLES

Applicant disclaims any exclusive right to the word "Disposables" apart from the mark as shown, without waiving any common law rights therein.

Class 21—Housewares and Glass

For Wiping Cloths (U.S. Cl. 29).

Class 25—Clothing

For Disposable Clothing Worn by Hospital Personnel—Namely, Aprons, Laboratory Coats, Smocks, Coveralls, Gowns, Shirts, Pants, Hoods, Caps, and Shoe Covers (U.S. Cl. 39).

First use June 1970.

SN 133,804. RMI Industries, Inc., Holyoke, Mass. Filed July 13, 1977.

Class 7—Machinery

For Commercial Built-In Vacuum Cleaning System Comprising Electrically Driven Power Units, Tubing, Wall Inlets, and Cleaning Tools and Hose (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Domestic Built-In Vacuum Cleaning Systems Comprising Electrically Driven Power Units, Tubing, Wall Inlets and Cleaning Tools and Hose (U.S. Cl. 21).

First use on or about Mar. 31, 1977.

SN 133,884. W. C. Bradley Co., Columbus, Ga. Filed July 14, 1977.

CHAR-KETTLE

Class 11—Environmental Control Apparatus

For Charcoal Barbeque Grills, Fire and Cooking Grates, Grids, Draft Slides and Motorized Pits (U.S. Cl. 23).

Class 21—Housewares and Glass

For Cooking Accessories—Namely, Cutting Boards (U.S. Cl. 34).

First use May 18, 1977.

SN 135,803. Joseph McDonnell Enterprises, Inc., d.b.a. Custom Carpet Center, Orchard Park, N.Y. Filed July 29, 1977.

Class 37—Construction and Repair

For Installation of Carpeting (U.S. Cl. 103).

Class 42—Miscellaneous

For Retail Carpet Store Services (U.S. Cl. 101).

First use about February 1964.

SN 140,333. Netzsch-Mohnopumpen GmbH, Selb, Germany. Filed Sept. 7, 1977.

Owner of German Reg. No. 949,826, dated Sept. 7, 1974.

Class 7—Machinery

For Machinery for the Manufacture of Fine Ceramic, Coarse Ceramic, Sanitary Ceramic, Ceramic Oxide, and Electroceramic Ware and Ceramic Tile; Filter Presses for Industrial and Sanitary Wastes; Worm Gear, Piston, and Membrane Pumps; Bottling Machines; Pulverizing Machines; Dressing Machines for Slaughter Houses; Machines for Plants Preparing Pig Feed and for Sugar Factories; Grinding Machines, Especially Ball Mills; Automatic Washing Machines for Laboratory and Medical Glassware and for Animal Cages (U.S. Cl. 26).

Class 9—Electrical and Scientific Apparatus

For Analyzing and Testing Devices for Testing and Controlling of Chemical and Physical Properties of Raw and Finished Products—Namely, Heat Scales; Plastometers, Strength Testing Machines, Torsion Meters, Tension Meters, Temperature Controls (U.S. Cl. 23).

Class 20—Furniture and Articles Not Otherwise Classified

For Plastic Laminated Covers, Containers, Tubs, and Lids Especially Those Made of Glass Fiber, Reinforced Polyester Resin or Silicone Rubber for Technical, Medical, Laboratory and Sanitary Uses (U.S. Cl. 2).

SN 143,837. Steppdeckenfabrik Kirchhoff oHG, Munster, Germany. Filed Oct. 6, 1977.

BETTY

Class 20—Furniture and Articles Not Otherwise Classified

For Pillows (U.S. Cl. 32).
First use September 1970; in commerce September 1970.

Class 24—Fabrics

For Quilts, Blankets, Bed Sheets and Bed Spreads (U.S. Cl. 42).
First use March 1977; in commerce March 1977.

SN 144,372. Acroform Corporation, Los Angeles, Calif. Filed Oct. 11, 1977.

ACROFORM

Class 6—Metal Goods

For Metal Hardware for Bi-Fold Doors (U.S. Cl. 12).

Class 12—Vehicles

For Stamped Metal Parts for Autos and Trucks, Specifically Bumpers, Hood Hinges, and Filter Housings (U.S. Cl. 12).

First use in or about May 1973.

SN 145,571. IVO Industries, Inc., Neptune, N.J. Filed Oct. 21, 1977.

YOUR BUSINESS PARTNER FOR COUNTING AND CONTROLLING

Applicant disclaims the words "Counting" and "Controlling" apart from the mark as shown, while reserving for itself any common law rights it may have in same.

Class 9—Electrical and Scientific Apparatus

For Mechanical Counters, Electronic Counters, Electromechanical Counters, and Pneumatic Counters for Industrial Applications, and Mechanical and Electromechanical Printing Counters for Industrial Application (U.S. Cl. 26).
First use Dec. 11, 1975.

Class 37—Construction and Repair

For Servicing and Repair of Mechanical, Electromechanical, Electronic and Pneumatic Counters and Printing Counters Used in Industrial Applications (U.S. Cl. 103).
First use Apr. 16, 1976.

SN 153,708. Pasquale Food Company, Inc. Birmingham, Ala. Filed Dec. 29, 1977.

PIZZA-NOW

Class 30—Staple Foods

For Pizzas, Spaghetti, Pasta and Italian Style Sandwiches for Consumption On and Off the Premises (U.S. Cl. 46).

Class 42—Miscellaneous

For Restaurant Services (U.S. Cl. 100).
First use at least as early as Dec. 14, 1977.

SN 155,585. Trisa Burstenfabrik AG Triengen, Triengen, Switzerland. Filed Jan. 16, 1978.

Trisa dent-o-vit

Owner of Swiss Reg. No. 275,153, dated Jan. 20, 1975.

Class 3—Cosmetics and Cleaning Preparations

For Dentifrice Paste (U.S. Cl. 52).

Class 21—Housewares and Glass

For Toothbrushes (U.S. Cl. 29).

SN 156,505. Instructional Industries, Inc., Ballston Lake, N.Y. Filed Jan. 25, 1978.

PAL

Owner of Reg. No. 1,024,135.

Class 9—Electrical and Scientific Apparatus

For Pre-Recorded Tape Casettes and Instructional Flmstrips for Use in Association With Educational Teaching Machines (U.S. Cls. 26 and 36).

Class 16—Paper Goods and Printed Matter

For Workbooks for Use in Association With Educational Teaching Machines (U.S. Cl. 38).

First use March 1975.

SN 157,026. Zoecon Corporation, Palo Alto, Calif. Filed Jan. 30, 1978.

STRIKE

Owner of Reg. Nos. 753,566, 1,044,616, and 1,062,065.

Class 3—Cosmetics and Cleaning Preparations

For Pet Shampoo (U.S. Cl. 52).

Class 21—Housewares and Glass

For Insect Traps (U.S. Cl. 50).
First use in or about 1976.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26. 1973 (911 O.G. TM 210).

Application in one class

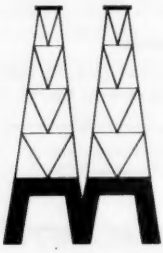
Class 1—Chemicals

SN 68,935. Photo-Me International Limited, Walton-on-Thames, Surrey, England. Filed Nov. 13, 1975.

PHOTOME-CHROME

For Sensitized Films and Paper for Use in Photography and Photographic Chemical Preparations (U.S. Cl. 6).
First use on or about Nov. 27, 1973; in commerce on or about Nov. 27, 1973.

SN 91,469. Messina Incorporated, Dallas, Tex. Filed June 24, 1976.



The mark consists of a stylized letter "M" as the base of a pair of oil derricks.
For Oil Field Products—Namely, Oil Well Drilling and Treating, Compositions and Fluids, Aggregates, Additives, Weighting, Conditioning and Filtrate Reducing Agents, Viscosifiers, Lost Circulation Materials Comprising Compositions Containing Granules, Flakes, Shredded Fibers and Ground Nut Shells for Mixing With Drilling Fluids (U.S. Cls. 1 and 6).
First use at least as early as Jan. 15, 1975.

SN 97,214. Roberts Consolidated Industries, Inc., City of Industry, Calif. Filed Aug. 20, 1976.

The stippling on the drawing is not a feature of the mark, but rather indicates that the bands of the mark are of a contrasting color arrangement. However, no claim is made to any particular colors.
For Masonry Water Repellent Sealant Composition (U.S. Cl. 16).
First use on about Aug. 1, 1973.

SN 113,726. Drew Chemical Corporation, Parsippany, N.J. Filed Jan. 26, 1977.

AMEROYAL

For Water Treatment Chemicals for Scale and Temperature Control in Fresh Water and Sea Water Distillation Plants (U.S. Cl. 6).
First use as early as June 5, 1968.

SN 122,324. Syva Company, Palo Alto, Calif. Filed Apr. 11, 1977.

LIPLEX

For Cyclodextrin Being a Component of Diagnostic Reagents for In Vitro Use (U.S. Cl. 6).
First use Apr. 11, 1977.

SN 125,069. Mueller Chemical Company, Inc., Prairie du Sac, Wis. Filed May 2, 1977.

B-SHARP

For Preparation for Cleaning the Soles of Basketball Shoes and Improving Traction on Hard Surfaces (U.S. Cl. 6).
First use Dec. 1, 1966.

SN 127,796. Malvern Minerals Company, Hot Springs, Ark. Filed May 24, 1977.

TRIKUP

Owner of Reg. Nos. 964,928, 1,080,093, and others.
For Aluminum Trihydrate Treated With a Coupling Agent for Use as a Filler in Polymeric and/or Ceramic Compositions (U.S. Cl. 6).
First use Mar. 23, 1977.

SN 137,955. Handy Dan Home Improvement Centers, Inc., City of Commerce, Calif. Filed Aug. 18, 1977.

HANDY DAN

For Panel Adhesive (U.S. Cl. 5).
First use Sept. 1, 1976.

SN 139,951. Alberta Gas Chemicals, Incorporated, Parsippany, N.J. Filed Sept. 6, 1977.

ALBERTA GAS CHEMICALS

For Malic and Fumaric Acids Used as Food Acidulants as Well as Methanol Used as a Solvent (U.S. Cl. 6).
First use Mar. 25, 1977.

SN 141,333. J. T. Baker Chemical Company, Phillipsburg, N.J. Filed Sept. 15, 1977.

OxyRate

For Diagnostic Reagents for Laboratory Use (U.S. Cl. 6).
First use May 12, 1977.

SN 141,960. Rumianca S.p.A., Turin, Italy. Filed Sept. 20, 1977.

The mark consists of a stylized "R" and design.
For Chemical Manure, Fertilizers, Plant Growth Regulators, Synthetic Resins and Plastic Materials Which are in Powder, Granular or Liquid Form; Industrial Chemicals—Namely, Alkali (Caustic Soda); Anhydrides and Inorganic Acids (Arsenic, Hydrochloric Acid, Sulphuric Acid, Chlorosulphuric Acid, Oleum); Organic Acids (Formic and Oxalic Acid); Citric Acid; Organic Chlorinated Compounds (Chloral Monochlorobenzene, DDT, Carbon Tetrachlorene); Acrylonitrile, Acetonitrile; Chlorine, Sodium Hypochloride, Ammonia, Sodium Sulphate, Carbon Disulfide; and Bleaching Earths, Virgin Cracking Derivatives (Ethylene, Propylene, C4 Stream or Cut, Hydrogenated Pyrolitic Gasoline) (U.S. Cls. 1, 6, and 10).
First use September 1970; in commerce June 21, 1974.

SN 145,021. Polychrome Corporation, Yonkers, N.Y. Filed Oct. 17, 1977.

CELLOFILM

For Nitrocellulose Compositions for Use in Lacquers and Coatings (U.S. Cl. 6).
First use as early as Oct 1, 1970.

SN 145,027. ITT Rayonier Incorporated, New York, N.Y. Filed Oct. 17, 1977.

CELLUNIER

For Wood Pulp (U.S. Cl. 1).
First use Oct. 5, 1934.

SN 145,424. Polychrome Corporation, Yonkers, N.Y. Filed Oct. 20, 1977.

CELLOGUM

For Resins for Use in Lacquers, Varnishes, Sealers and Coatings (U.S. Cl. 1).
First use at least as early as Oct. 1, 1970.

SN 145,758. G. D. Searle & Co., Skokie, Ill. Filed Oct. 25, 1977.

HEPACHECK

For Chemical Immunological Reagents and Test Kits for In Vitro Diagnostic Use (U.S. Cl. 6).
First use July 1977.

SN 146,242. Litton Systems, Inc., d.b.a. Kester Solder Division, Litton Systems, Inc., Beverly Hills, Calif. Filed Oct. 27, 1977.

SOLDER-NU

For Chemical Solution for Industrial Use for Removing Contaminant From Metal Surfaces to Facilitate Soldering (U.S. Cl. 6).
First use at least as early as July 14, 1976.

SN 146,243. Litton Systems, Inc., d.b.a. Kester Solder Division, Litton Systems, Inc., Beverly Hills, Calif. Filed Oct. 27, 1977.

COPPER-NU

For Chemical Solution for Industrial Use for Removing Contaminant from Metal Surfaces to Facilitate Soldering (U.S. Cl. 6).
First use at least as early as July 14, 1976.

SN 149,500. R.I.W. Protective Products Co. Limited, Croydon, Surrey, England. Filed Nov. 21, 1977.

R.I.W.

Owner of British Reg. No. 727,660, dated Mar. 5, 1954.
For Preparations (Not Being Paints) for Waterproofing, Damp-Proofing and Preserving Concrete, Cement, Brick, and the Like Building Materials (U.S. Cl. 6).

Class 2—Paints

SN 129,782. Illinois Bronze Paint Co., Lake Zurich, Ill. Filed June 9, 1977.

NOW

For Paints and Chemical Coloring Compositions (U.S. Cl. 16).
First use May 4, 1977.

SN 132,506. Brothers Century 21, Inc., d.b.a. Century 21, Inc., Youngstown, Ohio. Filed July 1, 1977.

LATEXTUR

For Architectural and Decorative Coatings in the Nature of Paint (U.S. Cl. 16).
First use Oct. 30, 1974.

SN 147,996. Cowman-Campbell Paint Company, Seattle, Wash. Filed Nov. 10, 1977.

C & C

Owner of Reg. No. 535,670.
For Exterior and Interior Paints, Marine Paints, Masonry Paints, Aluminum Paints, Paint Enamels, Varnishes, Wood Stains, Oil Stains, Varnish Stains, Paint Oils, and Paint Thinners (U.S. Cl. 16).
First use Mar. 26, 1937.

SN 149,499. R.I.W. Protective Products Co. Limited, Croydon, Surrey, England. Filed Nov. 21, 1977.

R.I.W.

Owner of British Reg. No. 727,661, dated Mar. 5, 1954.
For Preparations (In the Nature of Paint) for Waterproofing, Damp-Proofing and Preserving Concrete, Cement, Bricks and the Like Building Materials; and Paint and Priming Preparations in the Nature of Paint (U.S. Cl. 16).

SN 149,516. National Artcraft Co., Beachwood, Ohio. Filed Nov. 21, 1977.

CERAMA-CRAFT

For Aerosol Arts and Crafts Finishes (U.S. Cl. 16).
First use Sept. 1, 1977.

SN 149,547. Red Coat Industries, Inc., Buffalo, N.Y. Filed Nov. 22, 1977.

ON-GUARD

For Anti-Corrosion Undercoating for Automotive Vehicles, Coating for Agricultural Implements, for Tractors, Trailers, Trucks, or any Metal Vehicles or Metal Static Structures, Subject to Corrosion by Atmospheric Conditions (U.S. Cl. 16).
First use Nov. 7, 1977.

SN 149,572. Redland Limited, Reigate, Surrey, England. Filed Nov. 22, 1977.

REDLAND

For Road Marking Paints (U.S. Cl. 16).
First use June 1970; in commerce June 1970.

SN 150,856. Bisonite Company, Inc., Buffalo, N.Y. Filed Dec. 5, 1977.

CANTERBURY SQUARE

For Paint (U.S. Cl. 16).
First use May 1, 1969.

Class 3 — Cosmetics and Cleaning Preparations

SN 75,871. Emulso Corporation, Buffalo, N.Y. Filed June 21, 1976.

EMULSO

HOWARD

Owner of Reg. Nos. 872,489 and 895,385.
For Electrical Motors (U.S. Cl. 21).
First use at least as early as October 1973.

SN 129,271. Chromalloy American Corporation, St. Louis, Mo. Filed June 6, 1977.

SHUNK

Owner of Reg. Nos. 525,610, 670,209, and 637,672.
For Moldboards, Grader Blades, Drag Blades, and Snowplow Blades for Road Graders and Snowplows, Scarifying and Ice Blades, Agricultural Moldboards, Plowshares and Plowbeams, Buckets and Bucket Edges Used on Heavy Equipment Including Scrapers, Bulldozers, and Snowplows (U.S. Cl. 23).
First use in the year 1854.

SN 129,535. McNeil Corporation, Akron, Ohio. Filed June 8, 1977.

VOLUME-MASTER

For Air Motor Operated Liquid Pumps (U.S. Cl. 23).
First use Mar. 24, 1977.

SN 129,944. Genshichi Shigyo, d.b.a. Ishimoto Trading Co., Nerima-ku, Tokyo, Japan. Filed June 10, 1977.

QO

MAGSTAR

Owner of U.S. Reg. No. 1,055,024.
For Mobile Polishing and Cleaning Machine for Use in De-Scaling, Polishing and Cleaning Iron and Steel Surfaces Such as Ships, Tanks, and the Like (U.S. Cl. 23).
First use Aug. 1, 1972; in commerce Aug. 1, 1972.

SN 130,573. Guziok-Bat, S.A., Iraeta-Cestona (Guipuzcoa), Spain. Filed June 15, 1977.

URUTZPE

Owner of Spanish Reg. No. 749,823, dated Oct. 10, 1977.
For Machine Tools—Namely, Lathes (U.S. Cl. 23).
First use at least as early as Dec. 31, 1962; in commerce Dec. 31, 1965.

SN 131,905. Emerson Electric Co., St. Louis, Mo. Filed June 27, 1977.

WOOD EATER

For Chain Saws (U.S. Cl. 23).
First use on or about Apr. 15, 1977.

SN 132,156. H. Wittler & Co., Brackwede, Germany. Filed June 28, 1977.

WITTLER

Owner of German Reg. No. 818,578; dated Sept. 6, 1975; and U.S. Reg. No. 847,004.
For Machinery—Namely, Drawing Rollers, Textile Feed Apparatus, Edge Rollers, Textile and Cord Stackers, Cord Openers, Weft Thread Devices, Winders, Scraping Machines, Jet Blasting Machine, Washing Roller Woof and Weft Washing Apparatus, Drawing Apparatus in Paper-Making and Treatment Machines and Press, Stamp Covering and Cutting Machines (U.S. Cl. 23).

SN 133,545. Lincoln Logotype Co., Inc., Fort Wayne, Ind. Filed July 11, 1977.

POLY-FLEX

For Opposed Roller Ink Printer Utilizing Rubber Type (U.S. Cl. 23).
First use June 20, 1977.

SN 133,849. Sew-Eurodrive GmbH & Co. Suddeutsche Elektromotoren-Werke, Bruchsal, Germany. Filed July 13, 1977.

VARIMOT

Owner of German Reg. No. 849,016, dated Feb. 18, 1965.
For Variable Speed Gears (U.S. Cl. 23).

SN 133,874. Baker Perkins Inc., Saginaw, Mich. Filed July 14, 1977.

FLOW-MASTER

For Reactors for Mixing, Blending, Reacting, Aerating, and Adding or Removing Heat From Materials Such as Chemicals, Plastic and Food (U.S. Cl. 23).
First use May 30, 1977.

SN 134,345. The Warner & Swasey Company, Cleveland, Ohio. Filed July 18, 1977.

ELECTROTRU

For Truing Units for Use With Grinding Machines (U.S. Cl. 23).
First use at least as early as Apr. 30, 1977.

SN 135,420. The Computervision Corporation, Bedford, Mass. Filed July 27, 1977.

AUTOBOND

For Automatic Wire Bonder Machines for Semiconductors (U.S. Cl. 23).
First use June 9, 1977.

SN 137,130. Precision Handling Devices, Inc., Assonet, Mass. Filed Aug. 10, 1977.

XACTRON

For Form Tractors for Use in Feeding Documents Into Computer Printers, Teleprinters, Collators and the Like (U.S. Cl. 23).
First use Apr. 15, 1973.

SN 141,565. Turbodyne Corporation, Minneapolis, Minn. Filed Sept. 19, 1977.

For Electric Power Generating Turbines, Synchronous and Induction Motors, Electric Power Generators and Variable Speed Drives (U.S. Cl. 23).
First use Apr. 5, 1977.

SN 156,678. Beach Queen Corporation, Geneseo, Kans. Filed Jan. 27, 1978.

Beach Queen

For Machinery—Namely, Large Size Beach and Dirt Track Cleaning Machines To Be Towed Behind Powered Vehicles (U.S. Cl. 23).

SN 157,581. The Warner & Swasey Company, Cleveland, Ohio. Filed Feb. 6, 1978.

STEP-MASTER

For Machine Tools—Namely, Grinding Machines (U.S. Cl. 23).
First use at least as early as July 23, 1977.

SN 157,878. Hardinge Brothers, Inc., Elmira, N.Y. Filed Feb. 6, 1978.

For Bar and Chucking Machines (U.S. Cl. 23).
First use July 1977.

SN 158,333. K & S Industries, Inc., Saginaw, Tex. Filed Feb. 10, 1978.

TaptoTrim

For Automatic Monofilament Dispensers Incorporated in Powered Weed and Grass Trimmers/Edgers (U.S. Cl. 23).
First use as early as Dec. 27, 1977.

Class 8—Hand Tools

SN 72,322. Fairfield Sporting Goods, Inc., d.b.a. Fairfield Distributors, Chicago, Ill. Filed Dec. 19, 1975.

AMERICAN SPORTSMAN'S

Applicant disclaims the word "Sportsman's" apart from the mark as shown.
For Knives and Pliers (U.S. Cl. 23).
First use Jan. 3, 1975.

SN 74,483. Jasons (Equipment) Limited, Chertsey, Surrey, England. Filed Jan. 16, 1976.

JASONS

For Portable Pneumatically Operated Tools—Namely, Derusting and Descaling Tools (U.S. Cl. 23).
First use on or about Dec. 31, 1955; in commerce on or about Dec. 31, 1968.

SN 100,327. Alexander E. Sandorf, Sherman Oaks, Calif. Filed Sept. 20, 1976.

Applicant disclaims the word "Planter" apart from the mark as a whole. The drawing is lined for the colors blue and silver, but said colors do not constitute a limitation on the generality of the mark.
For Gardening Hand Tools (U.S. Cl. 23).
First use March 1976.

SN 101,338. True Temper Corporation, Cleveland, Ohio. Filed Sept. 27, 1976.

WOODSMAN

For Hand Tools—Namely, Axes (U.S. Cl. 23).
First use 1967.

SN 108,973. Silent Knight Automotive, Inc., Billings, Mont. Filed Dec. 8, 1976.

PORTA SWAGE

No claim is made to the work "Sewage" apart from the mark as shown.
For Flaring Tool for Use in Automotive Exhaustive Systems (U.S. Cl. 23).
First use Oct. 5, 1976.

SN 131,467. Cheese Shop International, Inc., Greenwich, Conn. Filed June 22, 1977.
Applicant disclaims the words "The Cheese Shop" apart

from the mark as shown without waiver of applicant's common law rights or statutory rights. Owner of Reg. No. 777,501.
For Hand Tools—Namely, Cheese Slicers (U.S. Cl. 13).
First use Apr. 26, 1964.

SN 134,851. Oy Rettig-Strengberg AB, Sinikalliontie, Espoo, Finland. Filed July 21, 1977.

PURMO

For Hand Tools—Namely, Brush Handles, Log Horses, Camping Spades, Axes and Saws (U.S. Cl. 23).
First use 1930; in commerce Feb. 18, 1977.

SN 138,551. Dresser Industries, Inc., Dallas, Tex. Filed Aug. 22, 1977.

di-lock

Owner of Reg. No. 650,479.
For Circular Diamond Saw Blades and Parts Therefor (U.S. Cl. 23).
First use on or about Jan. 16, 1957.

SN 156,418. Rolls, Inc., Washington, D.C. Filed Jan. 25, 1978.

ROLLS

For Razor Blades (U.S. Cl. 23).
First use Jan. 24, 1978.

SN 158,494. General Electric Company, Schenectady, N.Y. Filed Feb. 13, 1978.

GENERAL ELECTRIC

Owner of Reg. Nos. 867,114, 929,056, and others.
For Electric Manicure Sets (U.S. Cl. 21).
First use since June 1966.

Class 9—Electrical and Scientific Apparatus

SN 57,960. Frank Sigona, d.b.a. Sigtronics, Glendora, Calif. Filed July 17, 1975.

Sigtronics
Autocom

For Voice Actuated Communications Unit—Namely, a Voice Operated Intercom for Use in an Aircraft by Pilot and Passengers (U.S. Cl. 21).
First use Feb. 3, 1975.

SN 6,683. Esterline Corporation, New York, N.Y. Filed Nov. 19, 1973.

IDENTALINE

For Graphic Recording Instruments Having a Specially Developed Printed Circuit Board (U.S. Cl. 26).
First use at least as early as Oct. 8, 1973.

SN 73,756. Societe Nationale Industrielle Aerospatiale, S.A., Paris, France. Filed Jan. 8, 1976.

atec

Owner of French Reg. No. 732,423, dated Apr. 27, 1967.
For Computer Systems—Namely, Power Supplies; Paper Tape Recorder; Frequency Programmer; Converters; Digital Multimeters; Demodulator; and Angular Position Indicators (U.S. Cl. 26).

SN 74,301. Strom Industries, Inc., Newton, Mass. Filed Jan. 14, 1976.

MAX

For Computerized Telephone and Public Address System Comprising a Central Processor Unit, Room Selection Control Panel, Program Input Control Unit, Interface Units, Telephones, Loudspeakers, Receiver Stations, and Power Supplies Therefor (U.S. Cls. 21 and 26).
First use Jan. 2, 1976.

SN 88,771. Unitech, Inc., Austin, Tex. Filed May 28, 1976.

MPS-2000

For Computer Hardware and Peripheral Equipment for Creating, Editing, Transmitting, Duplicating, Storing, and Verifying Data on Media Used in Numerically Controlled Machine Tools—Namely, Micro-Computer Central Processer Units, Core Storage Units, Perforated Tape Readers, Tape Perforators, Punched Card Readers, Input Keyboards, Impact Printers, Flexible Diskette Drive and Controllers, and Telephone Line Interfaces (U.S. Cl. 26).
First use at least as early as Apr. 12, 1976.

SN 89,663. Treasure Sensor Corporation, Dallas, Tex. Filed June 7, 1976.

TARGET EYE

Applicant disclaims the term "Eye" apart from its mark as a whole, without waiving any of its common law rights therein.
For Electronic Coils for Mineral and Metal Detectors (U.S. Cl. 26).
First use at least as early as Mar. 1, 1976.

SN 96,063. Mech-Tronics Corporation, Phoenix, Ariz. Filed Aug. 9, 1976.

ESCORT

For Cordless Telephones Comprising Telephone Instruments and Associated Radio Frequency Transmitting and Receiving Devices for Linking the Telephone Instruments to Commercial Telephone Lines (U.S. Cl. 21).
First use on or about Oct. 22, 1975.

SN 97,502. Telex Communications, Inc., Minneapolis, Minn. Filed Aug. 23, 1976.

DOUBLE-HEADER

For Microphone (U.S. Cl. 21).
First use March 1976.

SN 98,644. Litton Systems, Inc., Beverly Hills, Calif. Filed Sept. 2, 1976.

POLY-SCIENTIFIC

For Electronic Swivel Systems—Namely, Slip Rings, Brush Blocks and Assemblies Thereof for Use in Rotating Electrical Components; and Electronic Security Systems—Namely, Sensors, Detectors, Control Panels and Alarms (U.S. Cls. 21 and 26).
First use as early as 1962.

SN 106,387. Societe d'Applications des Machines Motrices S.A., Issy Les Moulineaux, France. Filed Nov. 12, 1976.

SAMM

Owner of U.S. Reg. Nos. 1,045,248, 1,055,429, and 1,058,333.
For Fluidic Control Circuits and Component Parts Thereof (U.S. Cl. 26).
First use on or about Apr. 30, 1968; in commerce Feb. 14, 1969.

SN 107,296. Rapidsyn Co., Santa Fe Springs, Calif., by change of name from Computer Devices Corporation, Santa Fe Springs, Calif. Filed Nov. 22, 1976.

RAPiD SYN

For Electrical Steppers (Also Called Stepping Motors) and Solid State Drivers for Controlling Steppers (U.S. Cls. 21 and 26).
First use at least as early as December 1968.

SN 107,916. Updata Publications Inc., Los Angeles, Calif. Filed Nov. 26, 1976.

UPDATA

For Technical and Scientific Books and Reports in Microfilm and Microfiche Forms (U.S. Cl. 38).
First use May 30, 1975.

SN 110,692. Frances E. Bogart, Detroit, Mich. Filed Dec. 27, 1976.

Wings & Willows

For Prerecorded Magnetic Tape Cartridges and Cassettes (U.S. Cl. 36).
First use on or about Nov. 7, 1976.

SN 112,427. Bencher, Inc., Chicago, Ill. Filed Jan. 14, 1977.

BENCHER

For Camera Stands, Camer Shutters, and Photographic Film Changing Bags (U.S. Cl. 26).
First use on or about Feb. 1, 1974.

SN 113,221. Robert S. Krouse, Philadelphia, Pa. Filed Jan. 21, 1977.

LOVE MATE

For Switch Console for Remote Control of a Plurality of Receptacles (U.S. Cl. 21).
First use Jan. 7, 1977.

SN 113,392. Edward Kauz, Inc., d.b.a. Team Optical Company, Fords, N.J. Filed Jan. 24, 1977.

ANTHONY MARTIN

Applicant advises that the subject mark is not the name of a particular individual.
For Eyeglass Frames, Sunglasses, and Eyeglass Cases (U.S. Cl. 26).
First use at least as early as Dec. 22, 1976.

SN 113,854. John F. Rayfield, d.b.a. Rayfield Electric, Hollister, Mo. Filed Jan. 27, 1977.

QUIK-BOX

For Electrical Heat Pump Controls (U.S. Cl. 26).
First use Dec. 8, 1970.

SN 113,962. Juno Systems, Inc., Tulsa, Okla. Filed Jan. 28, 1977.

CAT-I

For Testing and Evaluating Machines, Such Testing Devices Utilizing a Projector and Viewing Screen for Questions and Answers (U.S. Cl. 26).
First use Dec. 17, 1976.

SN 114,530. Bunting Sterisystems Inc., Bridgeport, Conn. Filed S.R. Feb. 3, 1977; Am. P.R. Aug. 17, 1977.

BUNTING RCS-10

The drawing is lined for the color blue.
For Hospital Communication and Information Transmission Systems Comprising a Central Station Keyboard Terminal and Telephone Control Console Interconnected With Remote Telephone Station Consoles (U.S. Cl. 26).
First use at least as early as Apr. 28, 1976.

SN 117,141. Howe Richardson Scale Company, Clifton, N.J. Filed Feb. 25, 1977.

Kwik count

No registration rights are claimed for the word "Count" apart from the mark shown, but applicant waives none of its common law rights in the mark as shown or any feature thereof.

For Weighing Apparatus—Namely, Scales (U.S. Cl. 26).

First use no later than Apr. 15, 1976.

SN 117,478. Atari, Inc., Sunnyvale, Calif. Filed Feb. 28, 1977.

VIDEO MUSIC

Applicant disclaims the term "Video" apart from the mark as shown without waiving any of the applicant's common law rights to the mark as a whole.

For Audio to Video Converter (U.S. Cl. 21).

First use on or about Jan. 13, 1976.

SN 119,393. Motorola, Inc., Schaumburg, Ill. Filed Mar. 17, 1977.

INTRAC 2000

For Digital Radio Remote Control and Monitoring Apparatus (U.S. Cl. 26).

First use in or about November 1976.

SN 120,189. The American Society of Continuing Medical Education, Inc., Park Ridge, Ill. Filed Mar. 24, 1977.

THE AMERICAN SOCIETY OF CONTINUING MEDICAL EDUCATION

Without waiving any common law rights applicant may have thereto, the words "Medical Education" are disclaimed from the mark as shown.

For Audio Tapes for Medical Lecture Series for Doctors (U.S. Cl. 36).

First use in or about February 1977.

SN 123,211. R & G Machinery Company, Somerville, Mass. Filed Apr. 18, 1977.

FORM-KUT

For Machines for Trimming and Forming the Leads of Semi-Conductor Devices (U.S. Cl. 21).

First use Sept. 2, 1975.

SN 123,478. Atlantic Research Corporation, Alexandria, Va. Filed Apr. 19, 1977.

INTERVIEW

Owner of Reg. No. 1,043,370.

For Data Display Monitors Used in Testing Other Data Communications Systems (U.S. Cl. 26).

First use June 4, 1976.

SN 123,885. Bolex International S.A., Ste. Croix (Vaud), Switzerland. Filed May 23, 1977.

ASPHERON

Owner of Swiss Reg. No. 285,100, dated Aug. 31, 1976.

For Optical Lenses, Objectives and Objective Parts, Spectators, Finders, Filters, Bellows, Intermediate Rings, and Adapters, for Photographic and Cinematographic Cameras; Projectors and Players, Both Sound and Silent (U.S. Cl. 26).

SN 124,841. Essex Group, Inc., Fort Wayne, Ind. Filed Apr. 29, 1977.

EXSILOY

For Brass Alloys in Strip Form for Use as Electrical Terminals and Connectors (U.S. Cl. 21).

First use Apr. 26, 1973.

SN 124,946. Systems Associates, Inc., Charlotte, N.C. Filed May 2, 1977.

SAINT

For Hospital Computer System Equipment Comprising a Central Processor Unit, Disk Storage Unit, CRT Terminals, Line Printer, Serial Printer, Multiplexer and Replacement Parts Therefor; and Prerecorded Computer Programs (U.S. Cls. 26 and 38).

First use on or about Mar. 8, 1974.

SN 130,020. Dissly Research Corporation, Louisville, Ky. Filed June 13, 1977.

INFO-KY

For Information Storage and Retrieval Systems Comprising Computerized Microfiche Reader-Printers, Computerized Microfilm Reader-Printers, Video Display Terminal Units, Computer, and Disk Drive Storage Units (U.S. Cl. 21).

First use May 18, 1977.

SN 131,413. McDonnell Douglas Corporation, St. Louis, Mo. Filed June 22, 1977.

MCDONNELL DOUGLAS

Owner of Reg. Nos. 552,486, 760,259, and 1,033,718.

For Numeric Controls for Machine Tools (U.S. Cl. 26).

First use on or before Nov. 18, 1976.

SN 132,160. Soundolier, Inc., St. Louis, Mo. Filed June 28, 1977.

THE MASKER

For Audio Generators Having Paging and Background Music Input (U.S. Cl. 21).

First use May 13, 1977.

SN 134,607. Standard Microsystems Corporation, Hauppauge N.Y. Filed July 20, 1977.

VTAC

For Cathode Ray Tube Controller and Timer Integrated Circuits (U.S. Cl. 21).
First use July 7, 1977.

SN 135,043. Environmeter Corp., Houston, Tex. Filed July 25, 1977.

ENVIRONMETER

For Moisture and Light Measuring Meters for Use in Conjunction With House Plants (U.S. Cl. 26).
First use in or about February 1976.

SN 136,125. Sun-Glo Records, Incorporated, Miami, Fla. Filed Aug. 1, 1977.

SUN-GLO

For Phonograph Records, Eight Track Stereo Cartridges and Cassette Tapes (U.S. Cl. 36).
First use July 1, 1974.

SN 138,612. Besam AB, Lodjursgatan, Sweden. Filed Aug. 23, 1977.

BESAM

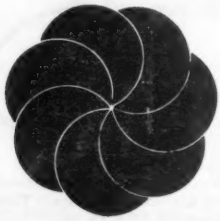
For Automatic Door Operators (U.S. Cl. 21).
First use September 1962; in commerce November 1969.

SN 140,141. William J. Pearse, II, Arvada, Colo. Filed Sept. 6, 1977.

DASHBOARD

For Sound Reproducing Equipment—Namely, Stereos for Automobiles, Receivers, Speakers, Turntables, Tape Decks and Headphones (U.S. Cls. 21 and 36).
First use July 29, 1977.

SN 141,564. Turbodyne Corporation, Minneapolis, Minn. Filed Sept. 19, 1977.



For Control Apparatus for Electric Power Generators and Electric Power Generating Turbines and Variable Speed Drives (U.S. Cl. 21).
First use May 23, 1977.

SN 142,840. Tyr-Spy, Inc., Detroit, Mich. Filed Sept. 28, 1977.

TYR-SPY

For Tire Pressure Monitoring Apparatus (U.S. Cl. 26).
First use June 1, 1977.

SN 144,077. Try-Spy, Inc., Detroit, Mich. Filed Oct. 11, 1977.

The mark comprises the letter "T" with the letter "S" superimposed on the stem of the letter "T" and both enclosed in a rectangular block with inset side portions, the same being superimposed on the cover for the apparatus.
For Tire Pressure Monitoring Apparatus (U.S. Cl. 26).
First use June 1, 1977.

SN 146,437. Computer Automation, Inc., Irvine, Calif. Filed Oct. 28, 1977.

For Digital Computer Systems and Components Thereof—Namely, Central Processors, Disc Drives, Desk Top Printers, Line Printers, Keyboard Terminals and Cathode Ray Tube Display Units, and Prerecorded Computer Programs Therefor (U.S. Cls. 26 and 38).
First use on or before July 22, 1976.

SN 147,201. Ettinger Enterprises, Inc., Knoxville, Tenn. Filed Nov. 4, 1977.

Applicant disclaims the word "Flote" and the representation of a life preserver apart from the mark as shown, without waiving any common law rights.
For Life Preservers (U.S. Cl. 26).
First use at least as early as Aug. 18, 1977.

SN 151,045. Full-Sight Contact Lens Corporation, Mount Vernon, N.Y. Filed Dec. 5, 1977.

FULL-SIGHT

Owner of Reg. No. 1,067,398.
For Contact Lenses (U.S. Cl. 26).
First use November 1977.

SN 154,256. The Fibre-Metal Products Company, Concordville, Pa. Filed Jan. 5, 1978.

ACTION-SPECS

For Protective Spectacles (U.S. Cl. 26).
First use Oct. 17, 1977.

SN 154,563. Communication Products Manufacturing Inc., Spokane, Wash. Filed Jan. 9, 1978.

For Antennas (U.S. Cl. 21).
First use on or before Nov. 1, 1976.

SN 154,746. Litton Systems, Inc., Oakville, Conn. Filed Jan. 9, 1978.

FLEX-COM

For Electrical Connectors—Namely, Insulation Displacement Connectors for Round Wires in a Flat Cable (U.S. Cl. 21).
First use on or about July 21, 1977.

SN 155,150. General Signal Corporation, Rochester, N.Y. Filed Jan. 12, 1978.

LEX-C

For Railroad/Highway Crossing Signals (U.S. Cls. 21 and 23).
First use on or before Sept. 29, 1977.

SN 155,226. LNR Communications Inc., Hauppauge, N.Y. Filed Jan. 13, 1978.

TRIDUNDANT

For Electronic Receivers, Transmitters and Frequency Converters Incorporating Three Low-Noise Amplifiers (U.S. Cl. 21).
First use Oct. 19, 1976.

SN 155,813. GEM Electric Manufacturing Co., Inc., Hauppauge, N.Y. Filed Jan. 19, 1978.

CONVERT-A-PLUG

Owner of Reg. No. 978,830.
For Grounding Adaptor (U.S. Cl. 21).
First use Jan. 28, 1977.

NSN 155,855. NP Industries, Inc., Niagara Falls, N.Y. Filed Jan. 19, 1978.

SONAFLOW

For Fluid Flow Meters (U.S. Cl. 26).
First use Nov. 16, 1977.

SN 156,494. Topex, Inc., Palo Alto, Calif. Filed Jan. 25, 1978.

TOPEX

For Hand-Held Microform Readers and Microforms (U.S. Cl. 26).
First use on or before Dec. 11, 1977.

SN 156,495. Topex, Inc., Palo Alto, Calif. Filed Jan. 25, 1978.

TOP 78

For Hand-Held Microform Reader (U.S. Cl. 26).
First use on or before Dec. 11, 1977.

Class 10 — Medical Apparatus

SN 114,241. Century Mfg. Co., Aurora, Nebr. Filed Mar. 25, 1977.

Saf-KARY

For Wheelchair With Removable Seat Designed for Use With Applicant's Whirl-Pool Bath (U.S. Cl. 44).
First use Sept. 30, 1963.

SN 121,253. Siemens Aktiengesellschaft, Berlin, Germany. Filed Apr. 1, 1977.

INFANTOSKOP

For Diagnostic Medical X-Ray Machinery (U.S. Cl. 44).
First use October 1973; in commerce December 1974.

SN 123,467. The West Company, Phoenixville, Pa. Filed Apr. 19, 1977.

FLIP OFF

For Closures for Use on Containers for Medicaments (U.S. Cl. 2).
First use July 20, 1962.

SN 128,156. Medtronic, Inc., Minneapolis, Minn. Filed May 26, 1977.

ISOMOD

Owner of Reg. No. 989,041.
For Medical Apparatus and Instruments—Namely, Electro-Spinal Stimulation Systems, Components Thereof and Apparatus Associated Therewith (U.S. Cl. 44).
First use at least as early as May 3, 1977.

SN 130,287. Ipco Hospital Supply Corporation, White Plains, N.Y. Filed June 14, 1977.

WRAP III

The word "Wrap" is disclaimed apart from the mark as shown without waiver of any common law rights therein.
For Non-Woven Wrap for Sterilization (U.S. Cl. 44).
First use on or about Apr. 26, 1977.

SN 130,717. Electro-Catheter Corporation, Rahway, N.J. Filed June 17, 1977.

NBIH TORKPACE

For Transvenous Pacing Probes (U.S. Cl. 44).
First use Jan. 16, 1974.

SN 131,594. Major Prodotti Dentari S.p.A., Moncalieri, Torina, Italy. Filed June 23, 1977.

TRADEMARK REGISTRATIONS ISSUED

PRINCIPAL REGISTER

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the International class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

Class 1—Chemicals

1,092,565. (See Class 39 for this trademark.)

SUPPLEMENTAL REGISTER

These registrations are not subject to opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

Application in more than one class

1,092,568. Raymond J. Phillips, d.b.a. R. J. Phillips, Oakdale, Conn. SN 48,294. Filed P.R. 4-2-75; Am. S.R. 3-29-78.

NgraveR

Class 7—Machinery

For Power-Operated Tools—Namely Hand-Held Impact Tools (U.S. Cl. 23).

Class 8—Hand Tools

For Hand Operated Tools—Namely, Hammers, Steel Stamps, Chisels, Chisel Holders, Punches, and Stippling Tools (U.S. Cl. 23).

First use Mar. 1, 1975.

1,092,579. Ricardo Correa, d.b.a. Ricardo's, Omaha, Nebr. SN 126,265. Filed P.R. 5-11-77; Am. S.R. 3-21-78.

QUALITY YOU CAN TASTE

Class 30—Staple Foods

For Taco Shells, Tortillas, Taco Seasoning Mix and Taco Sauce (U.S. Cl. 46).

Class 42—Miscellaneous

For Restaurant Services (U.S. Cl. 100).

First use at least as early Mar. 1, 1968.

SECTION 2.—INTERNATIONAL CLASSIFICATION

Application in one class

Class 3—Cosmetics and Cleaning Preparations

1,092,566. The Procter & Gamble Company, Cincinnati, Ohio. SN 72,095. Filed P.R. 12-17-75; Am. S.R. 6-21-76.

STRONG AGAINST DANDRUFF . . . GENTLE ON YOUR HAIR

For Hair Shampoo (U.S. Cl. 52).
First use at least as early as Jan. 2, 1975.

Class 4—Lubricants and Fuels

1,092,567. Alaskan Meat Company, d.b.a. Alaskan Brand Oil Sales, South El Monte, Calif. SN 90,032. Filed P.R. 6-11-76; Am. S.R. 1-4-78.

ALASKAN BRAND

For Lubricants—Namely, Engine Oil Coolants and Motor Oil (U.S. Cl. 15).
First use Sept. 26, 1974.

Class 7 — Machinery

1,092,568. See Section 1.

1,092,569. Reliable Electric Company, Franklin Park, Ill., assignee of Hexcel Corporation, Dublin, Calif. SN 50,721. Filed P.R. 4–28–75; Am. S.R. 2–15–78.

HOTSPLICER

For Portable Heated-Platen Molding Press Used in Making Waterproof, Pressure Proof, Vulcanizations on Electrical Cables (U.S. Cl. 23).
First use Nov. 19, 1967.

Class 8 — Hand Tools

1,092,568. See Section 1.

Class 9 — Electrical and Scientific Apparatus

1,092,570. Cermetek, Inc., Mountain View, Calif. SN 111,856. Filed P.R. 2–22–77; Am. S.R. 3–15–77.

MINI MODEM

For Hybrid Electronic Circuitry Used in the Construction of Telephone Communications (U.S. Cl. 21).
First use on or before Oct. 1, 1974.

Class 10 — Medical Apparatus

1,092,571. Beverly J. Blachly, Portland, Oreg. SN 123,605. Filed P.R. 4–21–77; Am. S.R. 1–30–78.

BLACHLY BITE-BLOK

For Dental Mouthguard Device, Adapted To Receive an Air Passageway and Used to Prevent Injury to the Teeth and Mouth of the Patient in the Course of Electroconvulsive Therapy and Other Medical Procedures (U.S. Cl. 44).
First use on or aboua Dec. 4, 1976.

Class 11 — Environmental Control Apparatus

1,092,572. Promotional Merchants, Inc., d.b.a. The Shetland Co., Chelsea, Mass. SN 92,463. Filed P.R. 7–6–76; Am. S.R. 3–13–78.

BURGER MAKER

For Hamburger Cookers (U.S. Cl. 21).
First use May 25, 1976.

Class 12 — Vehicles

1,092,573. Martin Shower Door Incorporated, City of Industry, Calif. SN 123,163. Filed 4–18–77.

MARTIN INDUSTRIES

For Windows for Vehicles (U.S. Cl. 13).
First use Jan. 1, 1976.

Class 16 — Paper Goods and Printed Matter

1,092,574. Capital Cities Media, Inc., New York, N.Y. SN 111,429. Filed P.R. 1–4–77; Am. S.R. 12–13–77.

ARTS & PEOPLE

For Section in a Daily Newspaper (U.S. Cl. 38).
First use Dec. 9, 1976.

Class 20 — Furniture and Articles Not Otherwise Classified

1,092,575. Trash Trays, Inc., Moorehead City, N.C. SN 121,504, Filed P.R. 4–4–77; Am. S.R. 3–27–78.

For Receptable for Receiving Cigarette Ashes and Trash in Separate Portions for Commerical and Household Use (U.S. Cl. 2).
First use Feb. 21, 1977.

Class 24 — Fabrics

1,092,576. St. Louis Trimming, Inc., St. Louis, Mo. SN 43,250. Filed P.R. 2–3–75; Am. S.R. 12–13–76.

For Pieces of Fabrics and Ornamental Beads, Braids, Laces, and Sequins for Decoratively Trimming Dresses (U.S. Cl. 42).
First use Jan. 28, 1975.

Class 29 — Meats and Processed Foods

1,092,577. Lovitt Foods, Inc., East Providence, R.I. SN 108,001. Filed P.R. 11–29–76; Am. S.R. 6–20–77.

SHAVED STEAK

For Sliced Beef (U.S. Cl. 46).
First use on or about Jan. 19, 1976.

Class 30 — Staple Foods

1,092,579. See Section 1.

1,092,578. DMP Corporation, Mobile, Ala. SN 94,794. Filed P.R. 7–27–76; Am. S.R. 7–29–77.

QUALITY FOR LESS

For Iced Tea Mix, Gelatin Dessert Mixes, Pudding Mixes, and Pudding-Based Pie Filling Mixes (U.S. Cl. 46).
First use on or about Mar. 25, 1976.

Class 33 — Wines and Spirits

1,092,580. Arturo Pelizzatti S.p.A., Sondrio, Italy. SN 85,987. Filed P.R. 5-4-76; Am. S.R. 3-7-78.

PELIZZATTI

Priority claimed under Sec. 44(d) on Italian application filed Dec. 11, 1975; Reg. No. 294,775, dated Apr. 6, 1976.
For Wines (U.S. Cl. 47).
First use 1860; in commerce Oct. 11, 1971.

1,092,581. Triton Imports, Ltd., Atlanta, Ga. SN 125,797. Filed P.R. 5-9-77; Am. S.R. 3-23-78.

KLEINHANS

For Wine (U.S. Cl. 47).
First use at least as early as September 1975.

Service Marks

Class 39 — Transportation and Storage

1,092,582. Group Tours of America, Inc., New Orleans, La. SN 138,082. Filed 8-18-77.

GROUP TOURS OF AMERICA

For Travel Service in the Nature of Guided Tours and Package Tours (U.S. Cl. 105).
First use Jan. 1, 1976.

Class 42 — Miscellaneous

1,092,579. See Section 1.

SECTION 4.—PRIOR UNITED STATES CLASSIFICATION

Application in one class

Class 1 — Raw or Partly Prepared Materials

1,092,583. Folex Dr. Schleussner GmbH, Frankfurt/Main-Niederrad, Germany. SN 465,815. Filed P.R. 8-16-73; Am. S.R. 11-29-74.

SCHLEUSSNER

Priority claimed under Sec. 44(d) on German application filed Feb. 17, 1973; Reg. No. 907,579, dated July 19, 1973.
For Films, Plates and Rods of Synthetic Resins for General Manufacturing Use (Int. Cl. 17).

TRADEMARK REGISTRATIONS RENEWED

TRADEMARK REGISTRATIONS CANCELED

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

Section 8

924,892. GABS AND DESIGN. U.S. Cl. 103. 11–30–71.
927,404. MICHIGAN ETC. AND DESIGN. U.S. Cl. 46. 1–18–72.
927,704. TELO. U.S. Cl. 19. 1–25–72.
927,735. POISON IVY. U.S. Cl. 22. 1–25–72.
928,595. VENTURE. U.S. Cl. 19. 2–8–72.
928,669. JADE. U.S. Cl. 25. 2–8–72.
929,392. BROODCAPS. U.S. Cl. 6. 2–22–72.
929,731. SOLNEIGE. U.S. Cl. 51. 2–22–72.

The following registrations issued Mar. 21, 1972

931,045. ENCO. U.S. Cl. 1.
931,047. "W" AND DESIGN. U.S. Cl. 1.
931,048. CELLU AND DESIGN. U.S. Cls. 2 and 37.
931,051. E-LITH. U.S. Cl. 2.

INDEX OF REGISTRANTS

MAY 30, 1978

(Registered; Renewed; Canceled; Amended, Disclaimed, Corrected, etc.; New Certificates; 12c Publications.)

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the International class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).
